1. Chapter 1

Hi and I am back! This is the sequel to Reading HTTYD Fanfiction. So let's start. I don't own How To Train Your Dragon, it is owned by DreamWorks and Cressida Cowell. The cracks used in this fanfic don't belong to me, so give credit to rightful owners. Please Review!

~On Berk~

"Hey Hiccup! Where is my hammer?" called the Berkian Chief.

"It's on the top shelf!" replied the boy called Hiccup.

As Stoick approached the top shelf to grab his axe everyone on Berk disappeared in a scarlet flash.

~At the Wolf Den~
>The Vikings were teleported once again into the Wolf Den!
"Hey where are we!" called the boy called Tuffnut.

"Hey, we're at the Wolf Den!" shouted Astrid.

"Yes, you are correct Miss Hofferson!" shout the same cheery voice that belonged to a girl who they all haven't seen for months.

Sapphie stepped into view and the Vikings (I'll just say Vikings instead of saying Vikings and Dragons) gasped at the familiar face.

"Sapphie!" they all yelled, some of them ran towards her to give her a bone crushing hug but fell and crashed into each other to find Sapphie floating above them with a book labelled 'Harry Potter and the Half-Blood Prince.'

"Ok welcome once again to the Wolf Den, now our new adventure starts. But first let's call Wolfy, Nerdy and our new member here." Sapphie announced then clicked her fingers then appeared Nerdy but she wasâ€¦ a ghost. (Still a ghost. TT0TT -Nerdy said that.) "Wolfy is very far away right now but she will get here in five... fourâ€¦ threeâ€¦ twoâ€¦ oneâ€¦.â€¦." As soon as Sapphie finished her sentence the wall, the same one that was blow up a couple of months ago that was intact a couple of seconds ago, was blown to bits again. Rubble and shrapnel flew across the room a huge chunk bigger than Stoick was coming straight for them; luckily Sapphie conjured a shield to protect them. As Wolfy was charging towards the Den very quickly, Sapphie had cancelled out her magical Spartan army to back to where they were before the craziness started. But Wolfy still was wearing her golden Spartan Armour and holding her sword in her hand shouting a war cry. Wolfy charged through the hole in the wall on her horse neighing kick on its front legs.

"Did ya miss me!" she yelled giving her signature smirk.

"Hey Wolfy." Said Sapphie looking up from her book that now said 'Harry Potter and the Deathly Hallows.' "Our new member will be here in five... fourâ€¦ threeâ€¦ twoâ€¦ oneâ€¦.â€¦."

There was the sound of humming, the hole in the wall created by Wolfy, only a few meters away was a blinding blue light creating an giant 'X' shape creating another hole in the wall. Giant boulders again as the size of Stoick flew across the room but the shield was still up. The roaring of a StormCutter was heard with a blinding flash of light revealed everyone floating around and a large purple Stormcutter with one eye. Then they saw someone jump off of the saddle revealing a boy who was seemed older than the three girls, he seemed to be Darth Maul's species, but was pitch black all over with huge horns and purple eyes, typically dressed in red death leather.

"Yo Guys!" the strange person shouted.

"Hey Rumble! Welcome you are just on time for the fun to begin." Yelled Sapphie who was floating around but with more control than the others who were doing whatever.

"Oi you! You ruined my entrance! And stop it!" yelled Wolfy who looked agitated.

"Ok." He quickly said, he then stopped using the force and let everyone fall to the ground just before Sapphie hit the ground there was a cushion underneath her.

"Hey Sapphie! Why didn't you give me a pillow you traitor of the Brotherhood!" yelled Wolfy splayed on the ground.

Sapphie shrugged.

"Ok Rumble, introduce yourself as I need to get the other guests."

Said Sapphie as she then disappeared in a puff of blue smoke.

"Alright. Well hello everyone, my name is Rumbling Night Cutter but just call me Rumble for short, as some people know by my name is from the Haddock family dragons, my dragon is Nightcloud, a large one eyed StormCutter. I have other abilities; already I have shown you the Force you all will find out soon. You might think that you shouldn't be afraid of me but you should be." Said Rumble folding his arms across his chest, he saw the looks of everyone then someone decided to speak.

"Yeah, yeah Mister Star Wars. Cut the act. You are getting off topic." The voice belonged to Wolfy who was sitting in the air vent with her dangling from the frame with her legs holding herself on the edge.

"Shut up Wolfie." He said.

"SHUT UP YOU SON OF A TEMPLAR! IT IS WOLFY NOT WOLFIE!" she yelled, she did a 360 flip and landed on the ground in complete balance.

"Jeez woman." He mumbled but she still heard him, she was just about to pummel him untilâ€¦.

POOF!

There stood between them was a dazed Arno Dorian flipped upside down being held by his foot by Sparky.

"AHHH! WHERE THE HELL AM I!" he yelled.

"Arno?" asked Sapphie who was on Sparky's back, poking her head to the side so she could look at him.

"Oh My God! Arno!" yelled Wolfy in mid punch frozen in her pose, just inches away from his face.

"Yo dude. Strange getup?" said Rumble.

"Opps!" chirped Sapphie as she jumped off of Sparky's back.

"Sparky! Drop him." She said looking at her stubborn dragon.

Sparky huffed, still holding the French assassin by his foot.

"Drop him."

Huff.

"Drop him!"

Huff. '_Fine!'_

"Good Sparky."

Huff. Pokes tongue out.

"Um Sapphire." Asked Rumble.

"It's Sapphie. Dude Sapphiiiieeee! That is Wolfyyyyyy! That is Nerdyyyyy! I am Sapphiiiiiieeee!" Said Sapphie.

"Ok chill." Said Rumble.

"Um back to topic." Said Nerdy.

" Now tell me. WHERE THE HELL AM I!" yelled Arno who was standing up dusting off the dust.

Sapphie was about to answer him but Wolfy beat her to it.

"Oh let me explain." Said Wolfy then they both disappeared in a puff of red smoke.

"Umâ€¦ I'll be back in two secs." Said Sapphie then she disappeared in a puff of blue smoke.

POOF!

Then appeared the future cast and the other cast from before Riders of Berk.

"Ok we are all here! I have explained to everyone, this time we have more guests! So sit down everyone we are going to watch something soon." Announced Sapphie

Short but well this is only the first chappie.

"**We're your Weather Girls!"**

"Yep you girls are my girls." Said OSnotlout but was met in the face with a punch in the face fromâ€¦. OHiccup.

"Snotlout, please refrain from talking nonsense." Said OHiccup in a calm tone sitting back down again holding his fist.

PRuffnut then just noticed OHiccup and started to drool looking at him and his other counter parts thinking about the many cute and hot Hiccups.

~During the word absolutely the screen changes to Hiccup during dragon killing/train talking to Astrid holding her shield and axe. "Love birds." Said Sapphie nudging Wolfy who is face palming at her friend's antics.

"Hey! Astrid is my girl!" yelled PSnotlout but was hit in the face by YHiccup using his shield catapult.

"Ow! Who threw that!" he yelled rubbing his sore arrogant face.

"Wow, Hiccup can stand being bullied and teased but can't stand it when someone is claiming to own his girlfriend." Said Sapphie looking at the once ticked YHiccup, that he was blushing.

'**DUN!'**

~The music finishes, the screen goes black~

"Well hope you guys enjoyed that even though it is short, it is funny." Said Sapphie.

"Hey Saph can we show themâ€¦." Asked Wolfy who whispered in Sapphie's ear of what she suggested.

Sapphie smiled, a devious smile. "Yes we should my good friend, yes

Wolfy was grinning but Nerdy was paling and Rumble was confuffled.

"Oh boy." Mumbled Nerdy, as she stroked Ren's fur.

4. Chapter 4

Another Chappie! So since last time it was very long, this one will be shorter then next one will be longer, so a pattern. Enjoy, credit to the crack creators!

Some reviews!

**Rumbling Night Cutter: Thanks XD. **

Wolfy (Guest): Great Thor. Anyway why are you using a guest account?

movielover48: I will try, but I don't think I'll be able to. I'll try to find a short video, could ou recommend me any that are maximum five mins, for the pervious chappie, the video is only two mins but it took me an hour to type up the bold parts. But thanks for your suggestion, I will think about it.

Wolfy (Guest): Yes I know, am very intrigued about AC Unity. And everything a AC Unity bus went past you would just fangirl. Like what you did on Friday on the car ride.

Peacegamer12: I am going to do that, I even downloaded it on my laptop. XD It's so funny, I will do it soon. Because it don't know what to choose from, so you have made up my mind for the next chappie.

**Thank you for the eleven favs and follows!

5. Please Don't Chop Me!

Hi Sapphie,

PLEASE DONT CHOP ME!

I am so sorry this is a lame excuse but I won't be able to put up the next chappie. I am so sorry, I promised you guys 3 days max but I had some writers block and I became occupied to other things such as Doctor Who, Merlin, Fairy Tail, Nisekoi, Homework, Work, Minecraft, YouTube, Five Nights At Freddies and Slender.

Gods I nearly wet my pants with Five Night's At Freddies.

I think personally think that is a lame excuse, also today I am going on holidays, I will try to work on it there but it will be slow. I will be back on New Year. I am so sorry for leaving you guys like that, I have just had some major writer's block and homework is crazy!

Moving Averages! I don't even get it!

**Also I had Wolfy over at my place on Thursday, we thought of working on our YouTube and FanFiction but we had some difficulties, such as pesky brothers and a major accident that caused us to be afraid for the rest of the week till now. **

Wolfy may have accidently shot a arrow too high from the target and smashed a glass door, and my Dad is pissed! It was our fault since I agreed and decided to do Archery indoors. We are still trying to be on the safe side.

I am so sorry!

Hope to be bak soon!

Bye guys!

Still. PLEASE DONT CHOP ME!

~SapphireWolf2002 ^x^

I am also sorry for breaking my promise to you guys on the updating. School is almost back, so I am screwed, I will try. I would also like to state that for your suggestions, I am mainly going to show them cracks or spoofs and stuff relates that are relatively short as it takes a while for me to just type the bold, without the AN, so yeah. Please keep that in mind, also I am happy for you to suggest ideas of what I should do. Please check out the poll. Enjoy. Please review. Credit to creators. Yada Yada. Thank you for understanding. Hope you all had a great Christmas and New Year. Happy 2015!

Sorry for errors! Enjoy!

"Ok guys I got a PM and I have an announcement." Announced Sapphie, "We have a new Wolf Crew member! His name is phoboschampion367, he is going to arrive in a couple of minutes so yeah just telling the viewers, even if you guys know well except Nerdy as she hasn't even accepted the freaking invitation for Wolf Crew!"

"Cool, read his form. Thumbs up, another gamer, great." Said Wolfy looking at her phone.

"Not my fault." Pouted Nerdy.

"It is your fault, I sent that invite last year." Replied Sapphie.

"So another guy huh. At least I'm not the only one in this place." Said Rumble.

"Well how 'bout while you guys all relax and reflect on what you all just watched while I go pick the new guy up. Ok. Good." Said Sapphie, then she disappeared in a puff of blue smoke.

"But she didn't let us answer." Said a confused Viking.

"She does that a lot." Said Wolfy. "So well, start reflecting."

~~~~~A Couple of Moments Later~~~~~

"Ok, so what have you reflected?" asked Rumble.

PGobber raised his hand.

"Um, I don't know really, these videos were well. Strange."

"Correct. Even I don't have much to reflect on." Said Rumble.

~~~~~Ten Minutes Later~~~~~

POOF

There stood Sapphie and a guy who had a pale olive green complexion, onyx black eyes, matching hair that was messy. He seemed to be maybe older than Sapphie but you couldn't really tell but he was still taller than her. He was wearing an Assassin's Creed styled hoodie, a red plain T-shirt, black skinny looking jeans and some red sneakers.

"Hi!" he said. "I'm just joined! My name is phoboschampion367 just

call me Fear for short."

"Hi. So you into AC to huh?" said Wolfy as she patted him on the shoulder.

"Yup." He answered.

"Hey. Nice to meet you Fear. Names Rumble." Said Rumble, giving the guy, a manly pat on the back.

"Greetings, I'm Nerdy." Nerdy extended her hand for a hand shake.

Sapphie put an arm on Fear's shoulder, with some difficulty as she was a shorty, smiling at him, "So Fear, since you have arrived we have something special on during this chappie. Also because I own the readers a long chappie, so with intros and the boring part away, let's have some fun."

Sapphie then teleported everyone into the Room-that-needs-a-name-because-this-is-getting-annoying Room, she stated to speak, "Alright so this is going to be more different from before so let's start off with something easy for this chappie. Ok out of all of you guys I need the Astrids and Hiccups with me for a moment." She then blinked away with the Hiccups and Astrids in tow.

"Wait, when I joined. Why didn't we have something special." Complained Rumble.

Sapphie blinked back and shrugged, she then blinked away again.

Rumble frowned then looked at the other three.

Wolfy poked her tongue at him.

Nerdy smirked.

Fear just stared.

Everyone waited then they could hear yelling.

"Seems to be that one of the Astrids aren't happy." Said Fear.

Just before anyone else could speak they were all teleported into another room that was bigger than before with a stage and chairs with a screen on stage wall.

"Ok! Everybody this is a special performance. All of you sit tight for our performers!" cheered Sapphie, whose voice was on the PA.

Everyone sat down and got ready for what 'performance' was going to happen. Then the stage lit up showing OAstrid and OHiccup with microphones in their hands. OAstrid looked a bit embarrassed while OHiccup was nervous.

"Ok so first up we have OAstrid and her boyfriend up. They are going to sing a song of their choice, a covered song that has been turned

into a duet. Guess the song." Sounded Sapphie's voice onec again on the PA.

PUNCH

"W-well done."

"Why that song Sapph?" asked Wolfy.

"I like that song." She answered. "Ok next I need to draw names out of a hat, in there are pieces of paper with the names of the other

Hiccups and Astrids who haven't done something, Rumble may you do the honours of pulling out a name."

Rumble closed his eyes and put his hand into the hat and shuffled it around then after a while, he pulled a piece of folded paper up.

"Read it out." Said Nerdy.

"The name is YAstrid." Announced Rumble.

"Ok I'll prepare her. I sort of feel sorry for her but it's going to be entertaining." Said Sapphie shrugging again and disappearing.

They then were all transported into a garden with a sort of balcony, on the balcony they saw YAstrid with a pissed look and Sapphie standing next to her with a piece of paper and a bucket full of something at her feet.

"Oh boy." Breathed OGobber.

"This isn't going to be good." Sighed YGobber.

"Ok! So YAstrid has be chosen to do the ALS Ice Bucket Challenge." She then looked at YAstrid," You ready."

"Yeah." Replied YAstrid in a grumble.

Sapphie gave her a piece of paper to read out.

"Hi, my name is Astrid Hofferson. I'm going to do the ALS Ice Bucket Challenge. Before I do it, I nominate PRuffnut, PHiccup and Rumble to do it. But since this is a quick on I am only able to nominate one person and so I nominate Rumble. Have fun, otherwise after 24 hours you must donate to the ALS. Here I go." YAstrid spoke, she then grabbed the icy water filled bucket and held it in front of her. Then she held it higher and tipped it on herself. She yelled from the cold water.

"AHHH! It's so cold!"

Sapphie gave her a towel.

"Ok Rumble you were nominated you're up." Said Wolfy smirking.

"She really doesn't like him, huh?" whispered Fear to Nerdy.

"Yeah." She replied.

Rumble grumpily trudged up onto the stage and appeared in his hands was a bucket filled with ice water.

"If my Death Leather gets damaged you guys are paying and fixing it."

"Hi I'm Rumbling Night Cutter, I'm going to do the freaking Ice Bucket Challenge. What YAstrid said, I will nominate only one person but I have to announce it next chapter. Here I go."

He used the force to lift the bucket above his head then tipped it.

"OH MY GOD!"

"Here's a towel buddy" Sapphie tossed him a towel. "Ok now as you all heard next chappie Rumble is going to say who he nominates. So Rumble PM your nominee. You too come with me I'll take you to the dryer room."

"Is it like the elevator in the hospital on New Earth.?" He asked, Sapphie nodded.

Then the three disappeared and everyone else was teleported into the Room-that-still-doesn't-have-a-freaking-name! Room.

There stood Sapphie, and Rumble and YAstrid who were both dry once more.

"Ok now we will all play truth or dare but for a bit then do something else, we will continue the rest next chappie." Said Sapphie. "Since YAstrid and Rumble have to do the Ice Bucket Challenge they have to do scissors, paper, rock for who can go first."

"Scissors, paper, rock!"

"Scissors, paper, rock!"

YAstrid won.

"Okay, Rumble Truth or Dare." she asked.

"Um. Dare." He said.

"Ok then being brave, eh? Ok I dare you to do a hand stand for one minute" she said.

"Ok." Replied Rumble.

He got down and did a hand stand for a minute, Wolfy volunteered to time but Sapphie decided it was a bad idea since who knows what would happen so Nerdy timed instead but again maybe not so Sapphie asked Fear to time.

~One Minute Later~

"Ok you can stop now." Said Wolfy. "Or do you wanna go for longer. I don't mind."

"Um Rumble you alright. Your face is a bit you know. Red." Said Fear.

Rumble's face was red, from the blood rushing to his head. **(It rhymes)**

He wasn't bothered to be graceful has he stopped so he just did a roll and laid there for a bit splatted on the ground.

"Ok, Wolfy Truth or Dare." He asked with a mischievous glint in his

eyes.

"Ok. I go dare! I ain't losing to you." She replied.

"Good, because I knew you would go with dare. So I dare you to wear a pink frilly dress, for the rest of the chapter. I'll be nice enough to allow you Sapphie and Nerdy to choose." He smirked.

"WHAT!" Wolfy yelled, she then looked at Sapphie and Nerd. "Make sure it is at least bearable."

POOF

The trio disappeared in a puff of blue smoke.

~~~~With the Trio~~~~

"Ok. So Nerdy. What should we choose?" asked Sapphie as the two were looking at a row of pink frilly dresses.

"I don't like these ones. Go to the next row." Said Nerdy looking a bit bored.

The two looked a bit more until they found one.

"Perfect. Revenge under way." Whispered Nerdy to Sapphie, not allowing Wolfy to hear.

"Oi! Don't you dare!"

"Sorry Missy. But a dare is a dare!" cheered Sapphie.

"Yep revenge is sweet!" grinned Nerdy.

~~~~With the Others~~~~

"How long does it take for a girl to get dressed? With magic!" complained Fear.

"I know right!" agreed Rumble.

PUNCH

SMACK

"We're sorry."

HUFF

"Humf!"

POOF

There stood the three but Wolfy was behind the two wearing a large cloak with the hood up. But you could tell that the dress was poofy.

"I hate you." Wolfy grumbled.

"No you don't!" replied Rumble and Sapphie.

"Jinx!" Sapphie yelled.

"Welcome come on. Show everyone that the fierce Wolfy is in a pink dress." Said Rumble, smirking at his vctory.

"Ok. A dare is a dare!" shouted Wolfy then she pulled off the cloak.

Everyone started.

Wolfy was wearing a pink frilly poofy dress. It had frilly sleeves, bows and the helm of the dress. It was pink and pink with a giant bow in her short light brown hair. There was a sort of lacy apron tried around her waist that was covered in pink hearts.

Wolfy's face was red from embarrassment and anger.

"Ok. I choose. Nerdy! Truth or Dare!" she yelled.

"Um. I'm gonna regret this but. Dare!" Nerdy shouted.

"Oh, ho, ho! You're in trouble. I dare you to sing karaoke while eating a chilli and being pelted with cream pies!" Wolfy smirked.

"Shoot." Nerdy grumbled.

"Is that a Yogscast reference?" asked Sapphie raising an eyebrow.

"Course it is!" said Wolfy.

~~~~A While Later~~~~

Sapphie had teleported everyone into an abandoned ware house.

"You ready?" asked Sapphie looking at her nervous friend.

"Um. No. Can I back out?" Nerdy asked holding a large red chilli and a mic.

"Um." Said Wolfy putting her hand on her chin as if in deep thought. "No." She deadpanned.

"Damn it." Mumbled Nerdy. "So. What song do I have to sing?"

"The song is called, "Does Santa Clausâ€¦?" called out Sapphie as she was getting the stuff needed for the dare.

"Oh. Then that's not sooo bad." Replied Nerdy as she pulled the 'o' with uncertainty.

"Rrreally?" asked Sapphie as she raised an eyebrow pulling the 'r'. "Since you are ready let's start but I forgot you need to wear this." Sapphie held up a black garbage bag that contained something that made Nerdy gulp audibly.

"You'll be fine. It's just for the mood." Said Wolfy. "I promise you that you will enjoy wearing it."
~~~~

"Come one Nerdy. Follow me." Said Sapphie as she dragged Nerdy away.

Moments later they appeared again but Nerdy was in a wolf onesie.

"Told you, you would be fine." Said Wolfy.

Sapphie dragged Nerdy onto the stage and gave her the microphone.

"Ok. So there's the screen," sapphire said pointed to a laptop on top of a table piled with cream tarts and pies with some other random messy foods or things, "and here is you chilli ordered from Chili Wowas. The best chilli store known."

Sapphie then walked off stage into the crowd grabbing a Pavlova covered in cherry sauce.

"You ready?" yelled Fear as he got himself an extra-large cream tart.

"Um. Maybe?" replied Nerdy.

"Too bad." Said Rumble.

"So sad." Said Sapphie.

"It's payback." Said Wolfy with her cream tart cannon launcher and in her other hand was a can of whip cream.

"Start singing now!" cheered Sapphie as she pressed play.

The music started.

Wolfy decided for a grand finale she would shoot a giant, like I mean giant! Cream tart at her. So on the stage that couldn't be seen any more as the giant! Cream tart swallowed it, was Nerdy trying to dig or something? Her way out.

"WELL DONE NERDY!" cheered Sapphie as she was being positive.

"Give me a hug!" shouted Nerdy as she emerged from the cream pile, in the onesie that was now sloppy creamy white, brown, pink and also covered in cherry sauce, spreading her arms out for a hug. More likely to just get some revenge, "I don't think it's fair if I just experienced the cream by myself!"

"RUN!" shouted Fear.

Everyone ran for their lives, some were wondering why Sapphie didn't teleport them back but then didn't saw the smile on her face. They then notice that they were smiling also.

"I'M GOING TO HUG YOU!"

"SHE GONE RABID!"

"RUN!"

Well that took a while. Want Part 2? Then sit and wait for it cuz. It's coming, very slowly.

Hope you enjoyed it!

Peace out!

8. Chapter 7

Hey guys another chappie felt like posting today as it is my birthday! Yay! 13! Well thank you for the reviews.

Reviews:

DragonDream1011: Yeah. When Wolfy found out about that she was ticked. Nerdy well, deserved it. Everyone else, well, not much harm done.

Rumbling Night Cutter: You smart bugger. Alright then.

midnightsky0612: Thank you. You are awesome.

EzmiTallie: Aww! Thanks! Thank you for your suggestion. X3

After an hour or so everyone was puffed out, including Nerdy. Some people were hugged by Nerdy as there were too slow, were covered in cream and decided that some others should experience it too. So they decided to scoop up some cream to throw at some unsuspecting people.

"Well! Let's get back to the Wolf Den and relax for a while eh? Then we'll continue with Rumble announcing his nominee for the Ice Bucket Challenge." Announced Sapphie. "And we have another! Wolf Crew member. That we will all meet after we all settle down."

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~Moments Later~~~~~~

Nerdy was wearing a different outfit as her previous one was covered in cream, beyond repair. Not really. Nerdy just felt grossed out to
~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

wear clothes that were covered in cream and other stuff. She was wearing a grey plain shirt with a fur vest with some fur pants and boots, with a large raven feather in her hair with some owl feathers in twined with some bit of her hair secured by beads, as she was in a certain mood. For some reason Wolfy was in a different outfit, she seemed to be in a black suit. Sapphie also seemed to be in a different outfit, she was wearing a gray oversized shirt with the T.A.R.D.I.S on it and some knee length tights, also her hair was shorter, only up to her back and was it black. While Rumble and Fear where just still in their same attire.

"Ok so now we are all going to just relax. So first up we will read a fanfic. As most of you know what it is but the past cast haven't yet so this is the perfect opportunity." Said Sapphie. "But let's introduce our new Wolf Crew member, Dragonchick101!"

There standing at the door stood a girl with blue eyes and auburn hair that went a bit past her shoulders with a fringe that was swept to the left. She wore a black top, a matching skirt, black tights and black fingerless gloves.

"Hi I'm Dragonchick 101, but you can call me Agent 101 or just 101." The girl said.

"Hi Agent 101. I'm Wolfy but you can call me Agent 007." Wolfy shook her hand with a smirk, she then put on some sunnies. "Que the explosion Saph."

"Ok!"

EXPLOSION!

"Hey Agent 101! Nice to meet yah!" Sapphie gave her a hug.

"Greetings Newcomer. You are wearing a strange tunic. What tribe or clan are you from?" asked Nerdy in a strange voice.

"Wha?" said Agent 101.

"Ignore her. She just does that to annoy us." Said Wolfy pushing Nerdy to the side.

"Hello. Nice to meet you, I'm Fear. I'm new here too." Said Fear, pushing Wolfy slightly out of the way. He suddenly was shoved out of the way by Rumble who was using the force.

"Hi, names Rumble. Nice to meet yah." Rumble greeting her with a pat on the shoulder.

"Well to welcome our new member we will do something like last time. But first let's read a fanfic but since it is twenty chappies we will only read some of it. Maybe five or so." Said Sapphie. "Ok this one is, **'A Recipe for Disaster,' **by, **'****Arcawolf.' **The summary is: '**Berk is left shocked after a battle with a witch goes wrong. Everyone's horrified . . . except for Toothless. Apparently, he didn't care whether his surrogate brother was a human or dragon. Or, the one where Hiccup becomes a baby Night Fury.'**"

"Oh boy." Sighed YHiccup.

"I wonder what happens." Said YAstrid teasingly.

Chapter 1

Dragons. You've probably heard of them. Big, scaly lizards with a slightly unhealthy attachment to fire. Terrifying mythical monsters that have filled our legends since the beginning of time. I'm sure you've heard of them. You probably know a lot about them.

"Duh! We're Vikings!" called out PSnotlout.

"Just shut it." Said Rumble.

But of course, if you believed everything I just said, you obviously don't know as much as you think you do. See, not everything I told you is true. I'm not talking about the scaly part â€“ that's true. Or the big part â€“ that's usually true. And certainly not the fire part. No, the lie I told was the mythical part, because you see, dragons are very, very ****_real_**. My village was at war with them for hundreds of years before Toothless and I came along. Now, we all live together in harmony. We're partners, allies, best friends. Virtually every family in Berk has at least one dragon of their own, and everyone able to shoot a bow knows how to ride one. I'm no exception. I got one, too: Toothless. He's a good guy. A little too obsessed with chewing on tables, but I still love him.**

The Toothless' crooned at their riders.

Seeing as we're a village full of dragon-riding Vikings (and trust me, it's every bit as awesome as it sounds) you would think that any intelligent resident of Berk would naturally have an open mind about other mythical beasts. Maybe for everyone else that was true, but not me. Nope. No way. I didn't think there could be anything out there other than dragons. So, when I finally found my first so-called witch, I laughed.

Right up until she started throwing lightning at me.

"Hiccup!" cried OValka.

"Not me. Fanfic me!" said OHiccup putting his hands up in surrender.

"Move!" I cried.

My foot shifted in the stirrup, changing gear and sucking in Toothless's tailfin as he twisted to dive. A stream of yellow lightning passed over us, just inches away from frying me. The clouds rumbled. The residual light made Toothless's eyes glow.

"Careful, guys!" I called. "She's winding up for another!"

"I got it." Fishlegs grinned atop his hovering Gronckle, and pointed at the witch. "Meatlug, go!"

"I'm in this!" cheered PFishlegs.

**Above me, Meatlug spat out a glob of fire. It descended to earth

with a whine, picking up speed as it did.**

The witch snarled. She leapt out of the way, and unleashed another bolt of hot lightning.

"Oops." Fishlegs said. He and Meatlug watched with wide eyes as the lightning drew closer â€“

"Hookfang, now!"

"Snotlout! Snotlout! Oi! Oi! Oi!" cheered the Spitelouts and Snotlouts.

With a war cry, Snotlout and his Nightmare swept in, bearing down directly on top of Meatlug, forcing both rider and dragon below the lightning. That wasn't all it did; the momentum sent Meatlug and Fishlegs down further, right into the ocean.

"You're welcome!" Snotlout hollered. He jutted out his chin, puffed out his cheeks, and looked around for a certain someone. "Hey, Ruffnut, did you see that?"

"Yeah, yeah," Ruffnut grunted. "Eyes on the prize, loser."

"Competing for Ruff, eh? Snotty?" asked Agent 101.

With Ruffnut atop one head and her twin atop the other, Barf and Belch weaved their way toward the witch. The Zippleback twisted past one bolt, drew its necks far apart to evade another. Meanwhile, I urged Toothless higher, higher â€“

"Got you!" Armed with a sharp grin, Astrid patted her Nadder's neck, signalling her to fire. The Nadder swooped in behind the witch, bearing her wings wide to slow herself.

"Yeah Stormfly!" cheered PAstrid jumping up, she then noticed the looks of the other Vikings and sat down, still embarrassed.

The witch yelped. She barely dove out of the way, and flames scorched the rocks next to her. But she managed to force Stormfly back with more lighting. The witch rose, bushy-haired and wild-eyed . . .

This seemed as good a time as any.

"Like we discussed, Toothless. Ready . . ."

He found a spot above the witch, and hovered.

" . . . Now!"

We dove. The witch stiffened as she heard the telltale shriek of a Night fury preparing to fire.

The second she looked up, it was done.

No, we didn't shoot ****_her_**. I wasn't looking to splatter her all over the island.**

"Nice description Hic. Nice description." Said Fear.

Toothless just hit the ground next to her, which I heard feels like being smacked by a Gronckle's tail.

"Yeah it hurts. I speak of experience." Said OFishlegs, then OMeatlug starts to croon sadly as if apologizing, "It's ok girl, I know you didn't mean it."

A cloud of dust rose, hiding everything on the ground. Grains stirred, moving away like a school of fish as the other riders and I descended. Once we hit land, I dismounted, taking a moment to switch my prosthetic leg from its flying setting to its walking setting.

I hadn't heard anything yet. I held my hand up, warning the others to stay back. Off my waist, I grabbed my sword, and the fire lining it made just a tiny bit easier to see through the dust.

A hand reached out.

The witch was on the ground, completely brown with dirt. She clawed her way up to her hands and knees, hissing, "You . . ."

I bopped her on the head with my sword's pommel, and she dropped.

"Wow that was easy." Said YRuff.

"Yeah you just bop someone on the head with a sword then they drop." Said YTuff.

I turned. "Everyone accounted for?"

As I spoke, Fishlegs and Meatlug finally caught up. They were dripping and panting. "Yeah, I think so."

"Great." I looked at the still witch. "Now what? I don't think a regular cell would hold her."

"Burn her!" cheered the Tuffs.

"That sounds cruel." Said Nerdy.

Tuffnut laughed darkly. "Let's burn her."

The Tuffnuts were given strange looks.

"Nah, fling her off a catapult!" cheered the Ruffs.

"That's just as nasty." Said Wolfy.

"Nah." Ruffnut shoved her brother aside. "I say we fling her off a catapult!"

The Ruffnuts were also given strange looks.

"Oh, oh, I know!" Fishlegs bounced up and down, hand up. "Let's leave her on a rock in the middle of nowhere!"

"But she won't be in pain!" complained all of the twins.

As they, plus Snotlout all began to argue, I rolled my eyes and walked toward Astrid. "What do you think?"

"Always asking your girlfriend." Said OSnotlout.

"I don't know." She frowned thoughtfully, absently petting her purring Nadder. "I'm sure Stoick would like to know why she's here and where she came from, but it's too risky to bring her back."

"Well, we could always keep her in place and bring him here." I lifted an arm, and flexed. "I think I'm strong enough to wrestle an old lady."

"Yeah, very strong." Teased PGobber.

"Hey." Complained PHiccup.

Astrid laughed. She flicked my bicep, teasing, "You sure about that?"

"Hey, I've been working out," I said, strutting around her. "It takes a lot of muscle to wrangle a vicious Night Fury, you know."

"Yep, totally" said OAstrid.

She smiled. "I'm sure."

"I might even be stronger than you . . . ****_Argh_**! Okay, you win!"**

Astrid released me from the lock she had me in, and I rubbed my sore wrist tenderly. She offered me her hand, and pulled me to my feet. At that, Toothless and Stormfly, reassured that no fighting was happening, went back to trying to herd the remaining bits of dust in the air.

"Nice try," she told me.

"Someday." When she playfully rolled her eyes, I walked backwards and said, "No, you just watch. I'm going to became a big, hairy giant like my Dad, and then you will be sorry you ever teased me . . ."

As I was speaking, Astrid's eyes had grown wide. Odd, but maybe I sounded scarier than I thought â€“

"**_Hiccup, behind you!_****"**

I looked just in time to see a very much awake witch. A white beam shot from her hand directly toward me.

"Hiccup!" ccried everyone except the Wolf Crew and the Hiccups.

Toothless shrieked. A ball of purple fire emerged from his throat, seeking to intercept â€“

The two smashed together. The beam didn't stop. Now, it was just covered with purple sparks as it came toward me.

This was going to be fun.

**Boom****.**

A quick wiggle told me that I had all my fingers and toes. I could still see . . . oh joy, I was still alive. Hooray! And I didn't feel like I was missing anything. Maybe Toothless's fire had done the job after all. You know what they say: dragons trump witches!

"See, I'm fine." Said the Hiccups.

Speaking of the witch, Toothless had pounced, and I don't think she would be getting up again.

"Well, that could have been a lot worse." I shook my head, and shuddered. "Good thing, Toothless was there to save the day. Right, bud?"

Toothless panted. He wagged his hindquarters.

"Okay, now we need to get back to Berk." I glanced at the others. "Why is everyone looking at me like that?"

By that, I meant slack-jawed and with pale faces. Even Astrid. It was pretty adorable.

The Hiccups and Astrids blushed.

Stormfly suddenly hopped closer. She leaned down, and sniffed me.

"Hello to you, too." I said.

"Hiccup?" Astrid walked forward, scanning the air. "Hiccup, are you there?"

"Uh, yes," I said. "Astrid, I'm literally right in front of you."

She continued to look at the air above me. What was she doing? I walked up to her, determined to get her to stop this madness . . .

Whoa. ****_Whoa_**.**

Since when did Astrid get this tall?

She looked down â€“ ****_down_** â€“ at me. In a tight voice, she said, "Hiccup, is that you? Nod if you understand."**

I had no idea why she was treating me like this, but I nodded. When I did, instead of being relieved, Astrid was clearly horrified. She held her hand over her mouth, and backed away, whispering, "Odin . . ."

"Oh no. Don't tell me what I think is going on." Muttered

OHiccup.

"What? What?" asked OTuff.

She wasn't the only one. Everybody was giving me that same horrified look. Except the dragons. And even they â€“ with the exception of Toothless who seemed to be practically leaping into the air with excitement - were looking at me strangely.

I looked around. What . . .?

I noticed my helmet. It must have fallen off when the witch attacked. I walked up to it, intending to put it on.

Something was wrong. It shouldn't be this big.

I leaned closer. Peered into the shiny metal at my own reflection.

I saw green eyes. A black body.

**Wings.**

I screamed.

"Well that's chappie one. Next one?" asked Sapphie.

Everyone nodded wanting to know what would happen next.

Chapter 2

"This is terrible. ****_Terrible_**! I'm a dragon. A dragon! Not even a big one. I'm a hatchling. Dad's going to kill me for this. No, he's going to completely freak out, and then he'll kill me!"**

"Of course I would completely freak out." Said the Stoicks, exasperated.

I moaned. I meant to grab my head, but I had forgotten I now needed four legs to stand. So I just face-planted into the ground.

"Awww."

I rolled over. "Help me."

"I never knew Hiccup would ever ask that." Said PFishlegs, he was answered by glares.

The other teens stared.

Ruffnut burst out, "He's ****_adorable_**!"**

What? I got back to my feet, but wasn't fast enough to avoid Ruffnut.

"Look at him!" She gushed. One hand was splayed across my stomach, holding me to her chest. The other was poking me in the cheek with each word she spoke. "Aren't you a cute, bloodthirsty, little Night Fury?"

"Bloodthirsty?" asked OTuff.

Astrid scowled. "Ruff . . ."

She laughed. "Relax, Astrid. I'm not hitting on your boyfriend. You have to admit he's cute."

She pinched my cheek and tugged. I tried to shove her away, but that just made her go, "Aww!"

**"Give him to me!" Astrid, my saviour, snatched me away. She held me under the armpits, holding me out as far from her as she could. "Guys, what are we going to do about
this?"**

Silence.

Toothless whined. He bounded up to where Astrid was holding me and sat patiently.

I squirmed. Astrid got the point and set me down where Toothless, in his haste, rammed me hard with his snout and flipped me over. He sniffed, maybe to double-check that it was really me, and then dragged me toward him by the tail. He laid down, one leg on either side of me.

"You're enjoying this, aren't you?" I said to him.

"Very reassuring." Said PGobber.

He nuzzled me. Then he licked my face.

"We need to get back to Berk," Astrid declared.

"Yes, I agree!" I said.

"What about the witch?" Snotlout asked.

"See if she has any books on her," I told him. "It could give us a clue how to reverse this."

"Check if she has anything on her," Astrid said. "We might be able to figure out how to cure him."

"Okay, what about Toothless?" Ruffnut asked. "Doesn't he need Hiccup to fly?"

"Astrid can take him," I said. "I showed her how to fly Toothless."

"I'll take him," Astrid said. "Hiccup taught me the basics of how to work the tailfin, just in case . . . well, in case something like this happened."

"Uh, I just said that," I told her. She ignored me, as did everyone else. "Why are you repeating everything I say?"

**I had tried to approach her, but one of my too-many legs tripped me up. I laid there, staring at what I realized were not fingers

anymore, but toes.**

I was struck by a thought: could the other Vikings still understand me?

"Astrid? Hey, Astrid! Can you hear me?"

She didn't respond.

"Oh, no . . ."

Things had just gone from bad to worse.

"Yep"

I screamed up at Toothless. "Toothless, blink twice if you understand me."

He stared at me.

He licked my face.

Forget worse. We were doomed.

"It's the end of the world!" shouted YTuffnut.

I had honestly thought that turning into a dragon would have engraved the secret knowledge of dragon speech into my brain. Apparently not, though, as none of them were responding to my flurry of barks and howls, and I couldn't understand their noises either. I could see them concentrating, trying to figure out what I was saying, but nothing so far. Somehow, becoming the same species just made me even more alien to them.

I was nestled in Astrid's lap, the tip of my tail resting against Toothless's saddle. So far, she had gotten Toothless safely into the air with little trouble. No, the trouble had been getting on Toothless in the first place. Every time Astrid had tried to climb on with me onto the saddle, Toothless had moved away and turned so that he could stare at me. While everyone was caught in various degrees of shock, he seemed utterly delighted by my affliction.

"You really are happy with this aren't you bu." Grumbled YHiccup looking at YToothless.

"Astrid, you okay?" Fishlegs called out from somewhere behind us.

"Fine!" she shouted back. "Don't worry about me, I can handle this . . ."

I heard the gears click.

We fell out of the sky, leaving an echoing trail of screams.

"Yep you can handle it." teased PHiccup looking at PAstrid who punched him in the shoulder. "Ow!"

**"Sorry!" Astrid clung tight to Toothless as he climbed back up. "My

foot slipped."**

I buried my head in my arms.

Apart from the occasional cooing from Ruffnut, it was pretty quiet flying back. Normally, the journey back home would be filled with enthusiastic retellings of our latest battle, illustrated by the elaborate arm movements and flailing of one Snotlout Jorgenson. Not this time. I think the thought of how Dad was going to react had damped the mood a little.

Astrid landed farther from Berk than she usually would, giving herself time to slip off Toothless before anyone noticed. She held me close to her, doing her best to hide me from any prying eyes and ran for my house.

"Stoick! Are you here? It's me, Astrid!" She knocked on the door violently. I feared it would crack. Behind us, Toothless barked.

The door swung open.

"Astrid!"

I knew dragons had sharp hearing, but I hadn't expected it to be like this. Dad's voice boomed through my skull, as if seeking to crush it, and I curled into a ball of agony.

"Ow. Sorry." OStoick apologized.

**"I see you all are back. How's my favourite daughter-in-law?"
**

BLUSH

Her grip around me tightened as Dad wrapped her in a brief hug, and then a tremor went through us both as he slapped her on the back. "I see Toothless is here, too. Where's Hiccup gone off to?"

"Well, you see . . ."

"Taking care of business, isn't he?" Dad laughed. "That's my boy! Always working. Has he shown you what he's got down at the forge? You see, he's been playing around with some metal crafting . . ."

My heart stopped. He wouldn't.

" . . . and you remember that little figurine you were admiring when the traders came by?"

He WOULD. I wanted to cry. He was ruining the surprise!

"Dad." Cried YHiccup exasperated.

"That wouldn't have been the first time he has ruined a surprise." Said OHiccup.

My pained groan attracted Dad's attention. For the first time, he spied the tiny bundle â€“ aka. ****_Me_** â€“ in Astrid's arms.**

"Astrid," he whispered, "is that . . .?"

I felt her wince. "Stoick, I am so sorry . . ."

"Shh . . ." He held a hand up, silencing her. "I don't believe it. Hiccup finally found another one."

"It's not what you think . . ."

"Why, hello there, little guy!" Dad grabbed one of my hands â€“ paws, whatever â€“ and shook it up and down. "Nice to meet you. You can just call me Uncle Stoick."

"Uncle Stoick? Who would be the mother and father?" asked PSnotlout.

"He's not a dragon," Astrid cut in. "I mean he is, but he's not â€“"

"Oh, a girl, then? Sorry, my mistake." Against Astrid's protest, he took me from her. The sun was hot on my back as he held me up in front of his face. "Don't you worry, sweetheart. We're going to take good care of you."

"Oh great." Mumbled the Hiccups.

Everyone stifled a laugh.

He leaned in, and rubbed his nose against mine. If I could still blush, I would have. Not for myself, but for him. Dad was going to be ****_so_** embarrassed.**

"Oh no." mumbled the Stoicks.

Everyone again stifled a laugh. The Haddocks were sure funny.

"Stoick . . ."

"Where did he find her?" Dad asked. By this point, Toothless was jumping around on his hind legs trying to reach me. Dad obediently lowered his arms so that Toothless could sniff. "Did the parents come, too?"

"Hiccup didn't find him," Astrid said.

"Oh? Did she find him, then?" He smiled at me, and stroked my head. I counted down the seconds until the explosion. Three. Two. One . . .

"Stoick, that ****_is_** Hiccup."**

"And que the explosion." Said Wolfy.

EXPLOSHIONE!

Dad's hand froze mid-stroke. He slowly turned me to look him in the eye.

I raised a paw in greeting, and smiled.

"That's how you would greet him?" asked OFishlegs.

Chapter 3

"So?"

"So."

"Awkward silence." Chimed Sapphie.

Astrid and Dad were sitting at the table, appearing like they were staring at each other, but really they were looking into space. I was sitting on the tabletop between them, trying to figure out how to keep my wings closed. I hadn't had any trouble with them before, but that's because I hadn't really noticed them. Now, they seemed to flop down every time I relaxed. And I wasn't even going to get started on the awkward protrusion that was my new tail.

The table bumped. Toothless was down below, gnawing on one of the legs. Neither Astrid nor Dad seemed coherent enough to stop him.

"And the witch just died?"

"Yep," Astrid said. "Didn't leave behind a spellbook or anything."

"Oh." Dad shifted. He looked like he wanted to poke me. "Well, that's unfortunate."

"Yep."

"Yep."

The table bumped again, more violently. Skullcrusher had just decided to join Toothless. Unlike Toothless, he didn't really fit, and the table ended up bobbing up and down as it teetered on his back.

"Out from there." With his foot, Stoick shooed both Toothless and Skullcrusher away. "So, any suggestions on how to deal with this?"

"Not one," Astrid said. "Hiccup might have one, though."

They looked at me hopefully. I shook my head.

"Darn." Stoick drummed his fingers against the table. "I'll speak to Gothi. Maybe she'll know."

"Hopefully."

As the front door shut, signalling Dad's departure, Astrid sighed. "Guess we're postponing that picnic."

I waddled up to her, doing my best to shrug.

She giggled. "That's cute."

I scowled. I sat down and turned my head away from her, letting her know exactly how I felt â€“

My wings flopped open.

She giggled again.

"You would be so cute!" cried OAstrid pulling on OHiccups cheeks.

I always hear people telling others to use their eyes more, or their ears more, or whatever assorted body part they wanted to talk about. What I don't hear is people saying to use your nose more, which is a real shame, because boy, we missed ****_so much_**. Yesterday, I had been a little too wrapped up in events to notice, or maybe my brain was too busy adjusting to register the smells, but now? ****_Wow_****.**

I woke up to the smell of dew and sheepskin. The sheepskin was normal â€“ what else would we make our blankets out of? Dew was an unusual scent. See, in geographic terms, Berk sits right on the Belt of No Summer, so I usually only ever saw dew as frozen beads of water. The wooden walls, damp but sturdy, carried a taste of mulch to it. Or maybe that was coming from outside; I had left my window open. Taking another breath, I could detect some of the wildflowers that grew outside my window, and with them, a cool edge of frost.

"Wow! I wonder if we could transform into a dragon!" shouted PFishlegs.

"You can but you would need some magic or something." Said Fear.

"Magic being here." Said Sapphie waving her hands around. "Just letting it to be known."

I yawned. I had no arms to stretch, but my wings filled in for them. They fell to my sides afterwards, like a loose piece of parchment. My bed sure was cozy today.

I hopped to the edge of the bed, and peered over. Odd. Where was Toothless?

Someone breathed behind me.

"Toothless! You know you're not allowed on the bed."

Toothless yawned. His teeth popped out of their sockets. He smacked his lips, and then warbled a good morning.

"Off, Toothless!" I planted my two front paws on Toothless and ****_pushed_**. He stared at me curiously.**

I backed off. Lowered my head and charged. Hah! Take that! Now he was moving . . .

**But not from me. Toothless had rolled over to his side, but in a flash, he had hooked his paw under me and pulled me against his chest. He rolled onto his back with a very confused me sitting on top

of him.**

"Uh . . ."

He swatted me. Both of his paws were up, like raised fists in a fighting stance.

"Uh, no. Not happening, bud." I pounced on one leg, wrapping my own around it, and shoved it down with my chin. Toothless's leg bent under the force.

"Aww! That would be so cute to watch!" cried OAstrid.

"Wow she is acting OOC." Whispered Sapphie to Wolfy who shrugged and nodded.

More force then? You got it! I drew myself up high, and slammed down.

But despite my earlier success, this time I merely slid off the leg and landed face-first on his chest. A strong scent of salt water and smoke greeted me.

"You smell," I told him. When he smiled in answer, a wave of fishy air slapped me in the face. I wasn't as revolted as I would usually be.

There was something else. Something sharp and biting. Metallic. I traced that down to the prosthetic. I really, really should have felt bad about that, but a little part of me was proud that I had made an impact on Toothless's personal scent. I looked for further traces of me, and observed that there was a musky undertone to his scent, and that he smelled . . . cold. It was hard to describe, but it had that same make-your-nose-hairs-stiffen effect that a gust of wind did. I couldn't find anything else that resembled me, but I also wasn't in the habit of sniffing myself, so I had no idea what to look for.

What did I smell like? Suddenly, no other question had been so interesting. I turned, trying to press my nose against my shoulder, but couldn't quite reach â€“

But that's what tails were for. I eyed the loose limb hungrily. It was so long, there was no way I couldn't reach it.

However, there was the unfortunate fact that my tail, well, was permanently stuck to my body. When I swung around to catch it, it swung out of my way. I shook myself. I glanced over at Toothless, who seemed putout that I wasn't wrestling with him anymore.

"Just wait a second," I said to him. I crouched, bracing myself for the hunt. "Aha!"

I charged. My tail slipped out of the way at the last second, and I couldn't stop myself . . .

"Your acting just like Tuff!" giggled YRuffnut.

"**_Ahh!_****"**

It was a long fall from the bed to the floor. I had enough time for my life to flash before my eyes. It was pretty boring. Unless running away and being shout at by angry people, and failing, exploding inventions were your thing. And even if they weren't, it was only boring up until the part where I met Toothless. Then, everything was great.

As I hung there, pondering, it became apparent that the floor hadn't gotten any closer for a few seconds. I looked up.

I sighed in relief. I might have failed at catching my tail, but someone else hadn't.

"Hiccup?"

I looked at the doorway. Huh. I must have looked funny: dangling over my floor, held up only by the tip of my tail.

"Alright, Toothless, I think you can put him down," Dad said.

Toothless did so. As in he let go and let me drop. I glared at the other Viking. Thanks, Dad. At least you had the courtesy to wince.

"You okay, Hiccup?"

I was going to say yes, but Dad walked forward at the same moment a breeze came through the open window and ****_whoa_**, he reeked! Toothless's scent had been musky, but Dad's was ****_really_**** musky. I could smell the sheepskin he had slept with too, and a wonderful cologne of manly sweat and dirt-caked grime. At the same time, his smell was relaxing. There must have been something in it that signified family.**

"Detail bro. Details." Said Wolfy.

"Do I really smell like that?" asked YStoick.

"What would I smell like?" asked YGobber.

"Hiccup?" He waved his hand in front of my eyes. I wondered what would happen if I snapped at it, but instead, I lifted my paw and pushed his away, giving him what I imagined to be a suave and indifferent stare.

Hey, I wonder what Astrid smelled like?

"That totally doesn't sound weird." Said Rumble.

"Nice talk and all, Dad, but I got things to smell!" I bounded past him and out of the house, pausing only to take a deep breath of some meat boiling over the fire. Still needed to grab breakfast at some point.

**Berk was different from this angle. Houses rose like mountains. The sun behind them made giant shadows that hid their lower halves. The stone steps that ran down from my house to the village square were the same height as me, so I ended up walking down the grassy slope

beside it. When I did get on stone again, my claws made little clicking sounds.**

I breathed deeply. By far, the strongest smell in Berk was that of fish. No surprise there; we have a few all-you-can-eat buffets set up for the dragons. The other smells? Most I didn't recognize; others were ones that I had smelt when I was human, but much stronger.

It was then that I realized I had walked into the middle of Berk. And everyone was staring.

Well, here goes nothing.

People stared. I had already known that news of my transformation had spread like wildfire. No thanks to the twins, I bet. Odin knew that the best way to spread information around was to tell it to them in confidence. The dragons, on the other hand, didn't pay me much attention. Until I got close enough to smell. Then they all perked up, nostrils flared as they tasted the familiar scent that was not supposed to belong to a dragon.

Great, they were getting closer.

"Hi." I said.

I was now surrounded by dragons. Little Terrors, about my size, clung to the necks and bodies of the others. Thunderdrums and Gronckles formed a circle that kept me from fleeing; a Nightmare had managed to force its way through. The long necks of Zipplebacks rose over top of them. An unintentional growl left my throat. I was a person who enjoyed my personal space very much, thanks. Only Toothless and Astrid were allowed to invade it whenever they wanted. The dragons' scents were all intertwined, but I found that if I focused, I could isolate's one dragon's scent from the rest, the way you could choose to listen to one conversation while others were going on around you.

**A hard snout dug into my flank. I whirled around, snapping at the dragon to tell him to quit it. **

"I remember that happening to Toothless in the second movie!" said Sapphie.

Then the Nightmare poked me. I went up on my back legs trying to swat his claw. When my front fell back down, it was to land on the snout of a Gronckle, who shook himself to dislodge me. Before I could recover and stand up again, a Terror leapt on me.

"Come on, get off!" I complained as the Terror crawled all over me.

All my voice did was lure in another five of them.

My head hit the ground. Great.

My wings flopped open.

Then, the dragons stilled. They were all looking toward the Great Hall, even the Terrors on top of me.

A dragon yowled.

In a burst of barks and whines, the dragons exploded into the sky. Through the cloud of wings, I caught glimpse of a black creature bounding toward me. Not just any creature â€“ a certain Night Fury. Toothless skidded to a stop beside me, snapping at and chasing off the last Terror, and then bumped me with his head.

I patted him as best as I could. "Thank you."

"It ****_is_** him," I heard someone exclaim.**

Yep. Showtime. I extended my wings. Attempted to. Didn't quite work the first time. I got them halfway out before I had to close them and then try again.

"There we go." I balanced as best as I could on my back legs. "Yes, everyone it's true: I'm a Night Fury. Don't really know how, don't really know when I'll turn back, so everyone's just going to have to deal with it. Uh, haven't been able to talk to dragons so far, so don't ask about that. I would also prefer if you didn't tease Astrid about her boyfriend being a dragon. Remember, I'm the chief's son, so you don't want to get on my bad side. Any questions?"

Everyone minus the Hiccups laughed.

"I got a question! Do you know if anyone can understand you?" yelled out PSnotlout.

Everyone just stared at me.

"Whoa, there!" Toothless had just come up behind me, and had nearly lifted me with his snout. "Careful, I'm still not used to this whole dragon-thing."

He got me off the ground, then. I curled up on top of his head, right between his ears. His scales were warm from the sun. Perfect.

"Oi! So this is where our dragon-boy has gotten off to."

"Hey, Gobber." The tip of my tail flicked as I said that. I swear I didn't tell it to do that.

"Well, this is a bit of a doozy, ain't it?" Gobber walked up to me and crouched so that we were eye-level. He carried a very strong stench that I bet matched the forge â€“ as in molten metal and burning wood. I had to remind myself not to be grossed out because I probably smelt the same a good three days out of every week.

"Oh. So that's what I would smell like." Said YGobber. "And I have to say that is right, I bet you would smell like that."

"But a little less Gobber, I bathe." Teased YHiccup.

Gobber lifted my chin with his hook. Then tried to pry my mouth open, although I fought him on that. He did take the time to pluck at my tail, though.

"Are we absolutely sure this is Hiccup," Gobber asked, "and not just some poor, baby Night Fury?"

I lifted my paw and pointed at myself. A very Viking-ish and not dragon-ish move.

"Well, alrighty then."

A melodic voice floated into the midst of our one-sided conversation. "Believe me, I wish it wasn't true."

"Astrid!" I would have leapt to my feet, but Toothless was faster. His head whipped around fast, and I had to keep lying there in order to stay on. See, Toothless loved Astrid. In his eyes â€“ and in my Dad's - she was as good as family.

"You too!"

He ran over to her with me bobbing precariously on his head, claws trying to find a hold. My whole body vibrated as Toothless hummed, responding to Astrid's scratching.

"Don't you look beautiful, today," I said to her. Her hair was radiant in the sunlight, and it was also making her eyes sparkle. She smelled nice too; there was none of that musk that followed Toothless, Dad and Gobber around. Plus, her voice . . . as a human I had never been able to hear all the little inflections and layers that made it. By the time I would be able to speak again, I would have a whole new set of compliments to dazzle her with.

Was this strange? Mulling over all the flattery that I, a dragon, could give her? As I said, I was a dragon, now. But mentally, I was definitely human, and the human side of me most definitely still considered Astrid my girlfriend.

"How are you feeling?" she asked me.

I nodded. "Good, good."

I heard and smelt them before I saw the other teens, and quickly scanned through each of their scents for future reference. It was then I finally noticed the pattern: the musk seemed to be following the males around. Guess that was how dragons determined gender.

"Aw, there's my little killer!"

Ruffnut descended. I backed away and some sharp noise â€“ a squawk, I think â€“ exploded from my chest. I had no idea what it was, or ****_why_** I had done that, but Toothless suddenly snapped to attention. In one smooth move, he tipped his head so that I slid off, snatched me up in a wing, and deposited me between his front paws. He hunched over at the shoulders, wings curling forward and leaving only a small gap in front of me. I heard Ruffnut shuffle closer; Toothless shied away from the sound, teeth bared.**

I looked up. "Toothless, what was that?"

Toothless ignored me. He glared at something, maybe Ruffnut.

"Wow. Um Thanks bud." Uttered PHiccup patting PToothless on the head.

Interesting.

I tried to make the sound again, but it didn't come out as loud or sharp as it did before. It caught Toothless's attention though. He cocked his head and made what I called his ****_dok dok dok _**sound. Kind of like the sound you hear when you repeatedly hit a hollow tube of wood.**

So I squawked again. Toothless cocked his head to the other side. I squawked, drawing him in closer.

By the fourth squawk, he was rubbing his cheek against my back and purring. A warm tongue dragged itself across my neck.

Whispers. When I looked up, Astrid stepped back from Ruffnut. She rolled her eyes, but there was a bright smile on her face.

"Fine," Astrid said. "I'll admit it: that was adorable."

I smiled in her direction. It was okay if Astrid said that.

"You totally don't do favoritism." Said Agent 101.

Hey, hold on a second. Had I just talked to Toothless? Okay, 'talked', since I had absolutely no idea what I had said, if anything. But his reaction to my squawking hadn't been like the befuddled reactions of the dragons yesterday.

Holy ****crap**.**

"Sorry."

I could speak to dragons**.**

. . . kind of.

"Well do you want to continue or read another or do something else?" asked Sapphie.

"Read another."

"Something else."

"Continue."

"Another."

"Another."

"Ok then another we shall and I know a good one." Said Sapphie. "This one is, **'sytnr til mÃ³tgÃ¸rÃ°.'** Ok I can't say that but whatever. The summary is: **'****Hiccup knows a lot of languages so, whenever he gets annoyed or frustrated at someone he just talks in another language to irritate them. Unfortunately, this time the teens are on the receiving end of his frustration.'** I love this one, this is

also completed sadly but it is only five chappies but we will still read it. And there is different languages it this so I will fail pronouncing them.

Chapter 1 French

"Wait French! Let me read it!" cried Wolfy snatching the laptop from Sapphie.

"Ok?"

Hiccup groaned in annoyance, glaring at the group in front of him. The twins, as usual, were fighting each other. Snotlout was flirting with Astrid who was twirling her axe in her fingers trying not to attack him. Fishlegs stood awkwardly between the two groups not sure what to do. Hiccup rubbed his head, frustrated.

"Guys" he tried only to be ignored

"Stop it guys!" He shouted again but still all but Fishlegs didn't hear him. This was beginning to frustrate him to no end. Grinning, he had an idea. Taking a deep breath he shouted

"silence!"

All the teens turned to look at him with looks of shock on their faces. "Hiccup what?"

"vous ne seriez pas tranquille."

"I can get tranquil." Said Sapphie.

"He has started!"

Hiccup grinned in response Astrid scowled "Hiccup why are you talking another language?"

"c'est amusant"

"Amusement?"

By this point the twins were looking confusedly at Hiccup and then to each other, trying to figure out what was going on, Fishlegs was looking rather helpless, Snotlout was looking irritated and Astrid was looking a bit murderous. Hiccup was finding it extremely amusing.

"Murderous?"

"Don't you dare try do it with us." Threatened OAstrid.

"Ok." Said OHiccup hands up in surrender. "Maybe." he whispered.

"Hiccup" Astrid growled

"quoi?"

**"What are you doing Hiccup?" Fishlegs questioned. At that point Gobber walked in. "How are you guys doing?" He greeted walking up to

them but stopped as he saw the looks on the groups faces. Glancing at the irritated and confused looking group to a pleased looking Hiccup, Gobber sighed.**

"He's started talking in another language hasn't he."

"Deadpan." Said Agent 101.

"Yeah he has" Asrtid grumbled, glaring at Hiccup

"How did you know?" Fishlegs asked

"Can you get him to stop? It's irritating." Snotlout said.

Gobber sighed "that's the point." He said "if you annoy him, he'll start talking in another language to annoy you. He's started doing it ever since he began traveling. It angers Stoick to no end."

"Of course it does." Sighed OStoick.

"I'll be fine." Said OValka.

"Why would you?" asked OStoick.

"I have travelled and learnt many languages too." Replied OValka.

"Oh no." OStoick graoned

With a triumphant grin, Hiccup stretched "bienâ€¦ Je dois y aller maintenant"

"What?" Hiccup began walking off "Je vais voler"

"Hiccup!"

"Where are you going?!"

"Hiccup."

"au revoir!"

"Hiccup!"

As Hiccup left, the group could only stare after him. Gobber, seeing Astrid murderous glare, grinned and spoke "Don't worry, he'll be back to speaking normally soon."

"ne comptez pas sur elle!" Was called back.

Astrid growled and chased after him. "Hiccup what did you say! Hiccup! Get back here!"

"jamais!"

Translations.

-c'est amusant= it's fun

-quoi?= what?

-bien... Je dois y aller maintenant= well... I need to get going now

-Je vais voler= I'm going flying

"At least we know what he said." Said PFishlegs.

Chapter 2 Finnish.

"Nope can't read it." Said Wolfy.

"I can't."

"Anyone know."

"I do!" called out The Hiccups and Valkas.

"As expected. Maybe we should let them read it out." Said Agent 101.

So Wolf gave OValka the laptop to read.

"You know if I was chief..."

"Ugh"

"Hey, what're you using that tone for?"

"Snotlout I-"

"You think you're so clever and important now that you're so tall!"

"Thanks Snotlout." Said YHiccup.

"No, Snotlout, now lea-"

"No? Well I think you're lying mr-I-think-I'm-better-than-everyone-else-because-I-trained-dragons-and-are-now-no-longer-a-runt."

"That is mean!" called out Sapphie.

"Oh for the love of Thor, Snotlout, would you just leave me alone!"

Astrid glanced up from where she was feeding Stormfly and watched the two arguing cousins. A slight scowl crossed on her face.

"Idiot." She grumbled before going back to her work. Footsteps alerted her to the approaching presence. Stopping her work and looking up she spotted Fishlegs. He was walking towards her but his gaze kept flickering over to the pair.

"He's never going to learn is he?"

It wasn't really a question, but she answered anyway

"Nope."

They stood staring for a while.

"He's an idiot, isn't he."

"We established that a long time ago. We just didn't realise how much of one he was."

"Hey!"

They stood in silence again, watching the arguing duo walking through the village.

"Hey guys, what're you staring at?"

Ruffnut and Tuffnut approached them. Astrid grinned "we're watching Snotlout annoy Hiccup."

"What? Why would you- oh" Tuffnut broke off into a laugh, eyes darting over to Snotlout.

"Even we know not to do that!" Ruffnut added.

There was a pause as the group stared at Hiccup and Snotlout, before:

"Should we follow them?"

Tuffnut grinned "definitely."

They set off after the cousins, determined not to miss any of the following chaos.

"And then I'd do this so much better than you."

"Snotlout."

"What?"

"Would you just go away!"

"No."

Hiccup let out a cry of frustration and strode forward, his long strides keeping him ahead of Snotlout.

**The watching teens smiled in amusement. Astrid grinned even more.

"He's going to explode soon." At first, Hiccup's tendency to start talking in a different language irritated her unbelievably. However, as it began happening to her less and less, she managed to see the amusement in watching it happen to others.**

Back with the two, their argument was in full swing, when suddenly Hiccup stopped for a second. Then, as quickly as he stopped, he'd turned around so he was facing Snotlout

"MenisitkÃ¶ pois!" He yelled at the top of his lungs.

Snotlout froze, any retorts dying on his lips. He let out a week sounding "what?"

"Olet seurannut minua koko pÃ¤ivÃ¤n! Miksi? Vain Ã¤rsyttÃ¤Ã¤ksesi minua?"

Snotlout stumbled back slightly. The others couldn't help but laugh.

Everyone started to laugh but the Snotlouts.

Hiccup's anger seemed to fade slightly, a small grin appearing.

"Koston aika"

Snotlout scowled "stop it."

"Ei missÃ¤Ã¤n nimessÃ¤"

Growling, Snotlout turned to walk off. Hiccup followed him.

"Minne olet menossa? Luulin ettÃ¤ halusit keskustella"

"Hiccup."

"MitÃ¤?"

"Go away!"

"I wish I could watch it." Giggled YAstrid.

"Miksi minun pitÃ¤isi?"

Snotlout shouted in anger and ran off. Hiccup watched him.

"NÃ¤kemiin Snotlout!"

His only response was an angry yell. Hiccup grinned even more.

"NÃ¤hdÃ¤Ã¤n harjoituksissa!"

The other teens were laughing at the unfortunate Snotlout.

"Definitely unfortunate." Teased PGobber.

"His face!" Ruffnut cried, bending over in laughter. Astrid turned to look from where she had been staring at the retreating Snotlout, to Hiccup.

"I wonder how long he's going to keep this up?" Fishlegs questioned. Astrid wondered too, she hoped he kept it up for a while, seeing Snotlout's face entertained her a lot.

"Hopefully for a while." She replied.

Hiccup, as if hearing their conversation, grinned even more and mumbled something.

"Teet tÃ¤stÃ¤ liian helppoa"

A week later, he still hadn't stopped.

"I would go nuts." Said Agent 101.

Chapter 3 Norwegian

"Ok OHiccup's turn to read!"

All he had wanted was a peaceful afternoon flight with Toothless to get away from Berk and all his responsibilities for a while but apparently that was too much to ask. He glanced irritably at the group behind him. He needed company or someone to look out for him, they had said. He sighed, rubbing his hand against his forehead.

Astrid caught his glare and smiled, steering Stormfly so that the dragon was almost touching wings with Toothless.

"So this is fun." She said trying to break the tension.

"Tension breaker." Called out Rumble.

A crash and a shout caught his attention before he could respond. He turned around to see that Ruffnut and Tuffnut had obviously tried something stupid again and were now plummeting towards the ground below them. He sighed as their Zippleback rescued them, rubbing his head again as the headache increased.

"Oh no. He's gonna blow." Said Fear.

"Yeah, unbelievably fun."

Behind him the twins continued to argue loudly.

Hiccup clenched his fists together, trying not to get too annoyed.

"He is." Said Agent 101.

More noise and shouts.

He flinched.

Crash! The twins and Snotlout fired, sending shots of fire zooming past his head.

His headache increased.

"Nearly." Said Rumble.

Astrid shot Snotlout and the twins a glare. "What'd you do that for?!"

"This is boring, we were just trying to make things interesting!" Snotlout shouted in response "Why can't we do something fun!?"

"Bit more." Urged Nerdy.

Hiccup cried in frustration and turned sharply to glare at Snotlout and the twins.

"Five." Said Rumble.

"Four." Said Fear.

"Three." Said Agent 101.

"Two." Said Wolfy.

"One." Said Nerdy.

"Boom." Said Sapphie.

"Enten holder du munn eller gÃ¥ din veg" He growled.

Everyone silenced, realising what they had caused Hiccup to start doing. Snotlout and the twins stilled, silenced by the venom in Hiccup's voice.

"Tusen takk"

"Um, Hiccup?"

"Ja Fiskebein?"

"Fiskebein is Norwegian for Fishlegs." Said YValka.

Fishlegs paused slightly, before continuing as he noticed the lack of hostility in Hiccup's voice. "That looks like trader Johann's ship." He gestured down towards a small boat that looked pretty run down. The sails were ripped in lots of places and there was a lot of damaged to the wood.

Hiccup sighed again, 'great just what I need', he thought.

"Great." Said YTuff.

"SÃ¥ mykje for fred og ro" He grumbled out loud, the other gave him strange looks. As they flew downwards towards the ship, Astrid called over to him. "I hate it when you do this."

Hiccup grinned "Nei set gjer du ikkje. Du lÃ¸ynande elskar det."

Astrid glared at him.

As they landed, Johann greeted them.

"Oh thank goodness you're here!" he cried "I was afraid I'd be stuck out here forever."

Hiccup jumped off Toothless. "Kva skjedde?"

"I- I- What? Master Hiccup?"

Most laughed at Trader Johann's reaction.

"Vart du angreipen?"

Astrid strode past Hiccup "Ignore him" she said glaring at Hiccup who grinned in response "he's just being stubborn."

"As stubborn as a yak the lad. Just like his father." Said OGobber.

"Eg er ikkje sta, eg har det bare litt gÃ¸y"

"Would you stop that!"

"Nei"

"Hiccup!"

"Kva? Eg gjer ikkje noko"

Johann could only stare at the arguing couple, completely lost as to what was going on.

"Arguing couple?" asked PStoick rising an eyebrow.

He looked towards the other four Vikings. Snotlout caught his gaze and shrugged, not wanting to explain what was happening and why his cousin was suddenly making no sense.

"Uansett, Johann, kva skjedde?" Hiccup broke away from his argument with Astrid.

"Hiccup he can't understand you, none of us can."

"Eg veit"

"uhg" Astrid cried in frustration "can't we just have a normal conversation?"

"Det er normal, du bare forstÃ¥r ikkje min del"

Astrid glared at him, narrowing her eyes "If you just made some stupid, sarcastic response-"

"He did, didn't he." Said YAstrid.

She was interrupted by Fishlegs.

"What happened to your ship, trader Johann?"

Johann snapped out of his stunned state. "Oh it was such a massive storm! My ship tried her best but couldn't do much against those giant waves. A big as a mountain they were!"

Hiccup opened his mouth to reply but Astrid interrupted him. "I guess we could give you a lift back and you can repair your boat back on Berk." Johann nodded and smiled "Oh thank you!"

Not long, and many tales from Johann, later the group arrived back in Berk. Gobber, having been the first to notice the group, greeted them as they landed.

"Johann's tales are too painful to stand." Said YHiccup, shivering at the thought.

"How'd the trip go?"

Hiccup, being the closest replied "oh it was a lot of fun."

Gobber gave him a look, seeing the rather smug look on Hiccup's face and noting the rather irritated group behind him. "Okay, well I better go help Johann then." He replied and quickly left, guessing what had happened on the journey. Astrid came up from behind Hiccup "are we finally going to have a normal conversation now?"

There was a pause. Hiccup grinned, took a step away from Astrid and the others and turned with a confused expression on his face.

Deadpan

**"Eg veit ikkje kva du snakkar om" he replied innocently turning and

running off at Astrid's murderous glare. "Vi sjÃ¥ast seinare!"**

"Hiccup, get back here!"

"Kvifor vil eg gjera det!?"

Chapter 4 Dutch

"So this and one more then we will watch something." Said Sapphie. "So now YValka will read now."

"Dit is niet belangrijk, je hebt mij er niet voor nodig."

"Wow already he snapped?" asked PGobber.

"Hiccup."

"'Ik bedoel waarom denk je dat dit een goed idee was?"

"You'll give it a try?"

"Waarom zou ik dat willen?"

"So that's a yes?"

"How did that even sound like a yes!?" cried the Hiccups.

Astrid, Fishlegs, Snotlout, Ruffnut and Tuffnut paused in their conversation and turned to look at the group of Vikings that were making their way through the village following after a rather disgruntled looking Hiccup.

"Hoe kon dat ooit als een ja klinken!?"

Astrid blinked, what happened now? She knew that the older Vikings had been pushing Hiccup into taking on more responsibilities as he was the chief's son and that he wasn't very happy about it. However she had never seen Hiccup end up getting this annoyed over it.

"I wonder what's going on." Fishlegs said.

"Well whatever it is, he's clearly not happy."

"Yeah, and no one seems to get it." Ruffnut laughed.

The rest of the group nodded and watched as Stoick, oblivious to Hiccups displeasure, continued happily trying to talk to his son.

"What we've asked you to do is very important Hiccup." One Viking in the group spoke up.

Hiccup glared at him over his shoulder "Belankrijk, mijn voet" He replied sarcastically which, again, the adults missed.

"Hiccup!" shouted the Valkas.

"What I'm fine with it." Said theHiccups.

"I knew you'd understand!"

"Yeah now stop walking away so we can talk properly."

Astrid couldn't help herself and found herself laughing at the group. The other teens eventually joined her, unable to stop themselves.

Wiping a tear from her eye, Astrid spotted Gobber at the back of the group. He didn't seem to be trying to convince Hiccup of anything and looked amused at it all himself.

"Gobber!"

Astrid called over. Gobber heard and walked over to her.

"What's up Astrid?"

"What's going on?" She questioned.

Gobber smiled. "They're trying to convince Hiccup to do a job for them. Keep saying it's important and will help him become chief and what not. Of course Hiccup's not too happy about it, not that they can tell."

"What is the job?" asked YStoick.

"I dunno." Said Wolfy and Sapphie shrugging.

Astrid laughed again "how can they not tell?"

"Well there is the slight language barrier."

Both burst out laughing.

"You know," Gobber said, trying to hold back his laughter "it's a new record this time. Didn't even last 5 minutes before he snapped." They laughed as they watched the events unfold in front of them.

"Wow not even five minutes, record." Said OGobber, laughing.

"We could get this sorted a lot quicker if you were talking the same language Hiccup."

"Het zou niet gebeurd zijn als je naar mij had geluisterd in de eerste plaats."

"Maybe he's so excited that it's made him talk like this!"

"Do I sound excited!?" cried the Hiccups.

"Klink ik enthousiast!?"

"Yeah! That's the spirit Hiccup."

Hiccup sighed and grumbled something under his breath.

"Okay maybe not excited." One Viking said in response to Hiccup's now obvious look of irritation.

"Okay son, what is wrong?"

"Zoek het zelf uit."

"Are you happy?"

"Sad?"

"A bit."

"Grumpy?"

"Sorta."

"Depressed?"

"Not really."

"Hungry?"

"I dunno."

"Irritated?"

"Wow finally got it."

"Wow je bent er zelf achter gekomen."

"You're irritated?" Stoick asked in surprise.

"Surprised much."

"Hoe ben je er achtergekomen?"

"Why?"

"Je zou het weten als je zou luisteren"

"Stop this Hiccup."

"No."

"'Maar je luisterd nooit, of wel? Kan niet eens merken dat ik dit niet eens wil doen!"

"Hiccup."

"Ik zou gewoon willen gaan ontdekken."

Hiccup paused, turned around and glared at Stoick. Then sighed, turned back around and walked off, calling for Toothless.

"Ik ga een tijdje weg." He called to Stoick as Toothless came bounding round the corner.

"Hiccup where are you going!"

"Doei!"

The duo shot off into the air leaving a confused, and now slightly annoyed, Stoick and a pack of clueless Vikings behind him.

Behind them, Astrid, Fishlegs, Snotlout, Ruffnut, Tuffnut and Gobber collapsed into each other, laughing at all that had happened.

Chapter 5 German

"Ok last one then a video." Said Sapphie, "YHiccup will read next."

"Ich hasse dich jetzt, Alvin."

"Alvin?!"

**Said Viking glared down at the boy who stood, hands bound, in front of him. Thinking back, it probably hadn't been the best idea to kidnap the boy from his own house in the early hours of the morning- Alvin had discovered that the boy was in no way someone who enjoyed getting out of bed before he wanted- but, if Alvin was being brutally honest, he was getting rather desperate in his efforts to capture the boy, not that Alvin would admit that out loud of course. This had been the only time the boy's dragon had been out of the way and not with him. After capturing the boy, the usual sarcastic and witty resorts had been unleashed and Alvin, who had been expecting them, had managed to ignore them. That had been his first mistake. Dissatisfied that he wasn't getting to Alvin, Hiccup had decided the

best thing to do was to be a bit more creative. And by creative, the boy meant talking in a completely different language.**

"What in great thundering Thor is Alvin doing with my son!" demanded PStoick, PValka and YValka.

Alvin sighed, rubbing his hands across his face, his temper wearing thin. Ignoring the sentence he couldn't for the life of him understand, Alvin continued to demand what he wanted from the boy.

"If you ever want to see your home again, boy, you will train these dragons for me!" He shouted, gesturing to the groups of dragons that were crowded in separate cages around them. Hiccup looked at him, then to the dragons and finally back to Alvin. He shook his head.

"Sie haben mich vorher gefragt und Ich hab schon nein gesagt. Ich verÃ¤ndere meine antwort nicht."

"You will talk properly to me!"

"Und auÃŸerdem funktionieren Ihre PlÃ¤ne nie. Ich werde schlieÃŸlich entkommen."

Alvin growled.

"Hoffentlich bald. Ich mÃ¶chte wieder schlafen."

"You will listen to me!"

Hiccup glared at Alvin "Dar jemand beschlossen hat es wÃ¤re eine so tolle Idee mich so frÃ¼h auf zu wecken"

"Wow he seems ticked." Said Nerdy.

Alvin stepped towards the boy, raising his fist threateningly "you will do as I ask Hiccup." He growled.

"Nein."

"Or do you want me to lock you up again."

"Tolle arbeit mit der OriginalitÃ¤t, Alvin."

This continued for a while, Alvin growing increasingly infuriated with each foreign sentence spoken from Hiccup's mouth.

"You will-"

"Nein."

Many laughed at this.

"Train these dra-"

"Ich hab schon gesagt, es wird nicht passieren."

**"-gons! Arg!" Alvin cried in frustration, throwing his hands into the air and storming off. He was about to yell an order to his men

when he was interrupted by a crash as the rest of Berks teens came hurtling through a tunnel.**

Everyone started laughing.

"Tuffnut!" Astrid shouted "Would you just listen for once in your life!"

"Um. Is that a trick question?" asked the Tuffs.

Tuffnut was, undoubtedly, about to make some kind of retort when he was stopped by the fact that Alvin was marching towards the group, dragging Hiccup along behind him.

"Alvin give Hiccu-" Astrid stopped mid sentences as Alvin threw Hiccup towards her.

"Take the annoying runt back!" he shouted, then turned and stormed off in a huff, grumbling under his breath. Astrid watched confusedly at the retreating Outcasts back before turning her attention back to the grinning Hiccup who was stood next to her. Her eyes narrowed.

"Hiccup what did you do?"

"Yeah how come he looked so angry?" Fishlegs questioned.

Hiccup held up his hand to silence them, grinned even more and turned to look at where Alvin had disappeared round the corner.

"TschÃ¼ss, Alvin! Mir hat's SpaÃŸ gemacht!"

Everyone was laughing so much they were struggling to breathe.

There was a cry of anger that was quickly followed by "get the hell off my island!"

Laughing

The group of teens, save for Hiccup, found themselves sympathising with Alvin. Dealing with Hiccup in foreign language mode was not something anyone wanted to have to deal with, especially when he was sleep deprived.

"He is quite th-" said YGobber before someone, *Cough* The Hiccups *Cough*, threw a cushion at him.

"Was that really necessary?"

"Completely."

Hiccup's grin never faded "no, but I enjoyed it."

While the main 8 will stay for the rest of the story at will. Ghosting members will be PMed whenever by some other members if they want to join in a certain chappie/s.

Well hi guys! Sorry for the delay. It's 6 over here! But well school is back for me. First year of High school! Well I don't have much to say but I won't be able to update much anymore. I'm sorry, but during this time I will work on the chappies, and on some other stories. There is one that I want to post soon but I won't be able to update it often so your gonna have to wait. So I would like to welcome mark251002 and mollienaturerocks to the Wolf Crew. P.S You guys need to accept the invite for the Wolf Crew. Also that makes up now the main 8 of Wolf Crew. But you guys can still join but like I said last time. After the 8 you will be a Ghosting Member. Also for you guys who want to join just PM me or Wolfy, to join you have to fill out a form and that's all, also I need to update the form so. Current members may you please in your own time fill it out and PM me it. Thank you. I'll post it at the very bottom. Well Reviews! And a lonesome PM. No one really PMs me anymore. *Sad face*

DragonDreamer1011: Ikr! I love annoying Wolfy when I speak in a different language but she knows some other ones too. But with Nerdy she just starts speaking so Italian, as we had to learn Italian for like four years but I still can't say a single sentence without saying something wrong.

Dragonchick101: The first word that came into my head. 'Wha?' That is strange. Why thank you. Hope you are fine with Wolfy going all out, luckily she was on your team. Thank you, for your suggestion. Awww! Thank you! Give meh a hug! *Hug!* Here's a cookie too! (::)

Reader103: I'll try.

midnightsky0612: Thank you.

**Guest: (Reviews from Reading HTTYD Fanfiction) THE FEELS! Here's a

box of tissues. *Hands Guest a box of tissues. It's alright but the author might take that to offence, but it's alright. I was confused when I did this.**

mollienaturerocks: Thank you. Go YHicc! XD Ikr! Thank you again. Dagur the Deranged-Manic-that-everyone-hates-including-the-Hiccups! Thank you again, again. ****J**(From R eading HTTYD Fanfiction) Thank you again, again, again! XD**

mark251002: Oh nothing! Nothing that you need to know off. Yes that one! I think it is weird but very funny. Great Thor! Well thank you. *Dead panned expression holding a frying pan that is targeting a certain someone*

"Wolfy!"

"Hmm?"

"You are using. Freaking! REAL! GUNS!"

"Umâ€¦. Oops?"

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~A few moments ago~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

"Die!"

"HAHAHAHAHA!"

"Thor save us!"

"This is way worse than from before!"

"Someone knock her out!"

"OH! THE PAIN! THE AGONY!"

So that was just the yelling. So what was actually going on was that Wolfy was shooting the opposition team but with real guns than nerf guns. So in a nutshell. Wolfy + real guns = Bloodshed and Hell but twenty times worse.

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~Back to normal time~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

"Wolfy give me the guns!"

"No!"

"Give!"

"No!"

Glare!

"Ok."

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~Two hours later~~~~~~~~~~~~~~~~~~~
~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

Everyone was teleported back into the Theater Room. All the guys were wrapped in bandages, even though Sapphie had healed them, there was too much damage so she had to wrap them up. Erza Style! Thor save them. So Agent 101 and Nerdy decided that it was best for them to do it, also with the aid of some other females.

'Pain! Love it!" said the Hiccups, sarcastically.

"Ok I apologize deeply for Wolfy's bad behavior. So I have a special announcement, we have two new Wolf Crew Members!" announced Sapphie who was still in her doctor coat, she felt that she wanted to dress like the mood.

Most Vikings paled at this, more 'fun activities.'

"We won't have any more fun activities but we will do other things that won't strain the guys as they are in their condition." Said Sapphie, "So welcome our new members, mark251002 and mollienaturerocks."

There at the door stood a guy and girl. The guy had brown hair and greenish to blue eyes he wore attire that was similar to Wolfy's, when she was wearing her assassin uniform but his was black. **(Sorry I forgot to say that you had to say what your outfit was. Sorry. So I just said black instead.) **The girl had long light brown hair that was in a braid that reached her knees. It had gold and green streaks, she also had bangs that covered her left eye. Around her neck was a butterfly amulet with rainbow wings, around her wrist was a silver bracelet with the word, 'Friendship' in rainbow charm being surrounded by silver poke ball charms. She wore a silver tank top with the words, 'Rebel' in white. She had deep blue jeans with butterflies on the pockets. There was a snow white hoodie tied around her waist. She also had no shoes. **(I don't think I described you right, mollienaturerocks. Sorry)**

"Hi!" the boy spoke. "I'm mark251002 but you can call me AlphaMiner64."

"Hi! I'll call you Mark! You are the youngest out of us!" exclaimed Sapphie giving Mark a hug.

"Wow another person with a stupid name. I'm gonna call you Mark." Said Wolfy, "So you call yourself a gamer hey?" asked Wolffy leaning in on AlphaMiner64 but was dubbed Mark.

"Um. Hi!" said Agent 101 who managed to pull Wolfy away from Mark.

"Hey." Called Rumble as he was still in his chair, feeling pain along with Fear and the other males.

"Hi. I'm the one who Wolfy calls stupid name." said Fear.

"Because your name is stupid." Said Wolfy then she pointed to Mark, "You too."

"Hello!" greeted Nerdy who was being lazy and was still sitting.

The girl stepped forward. "Hi! I'm mollienaturerocks! Call me Rocks

for short."

"See! That is a reasonable nickname!" called Wolfy from who knows where. Maybe the air vents?

"Hi Rocks!" called Sapphie as she jumped to hug Rocks. **(Reminds me of a FNaF jumpscare! XP)**

"Hi." Was sounded from Fear, Rumble and Nerdy.

"Hello." Said Agent 101.

"Wait! I just noticed. Agent 101 doesn't have anything to do with Dragonchick101, well except the numbers, but what?" said Mark.

"Because that nickname is awesome!" called Wolfy again from where ever she is.

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~Hours later as I am too lazy to type~~~~~~~~~~~~~~~~~~~~~~~

"So let's watch a video huh?" asked Sapphie.

Everyone nods.

"Ok this one isâ€¦.. Phsst Agent 101 can you announce it as it is your suggestion." Said Sapphie.

"It is! Well ok! This one is, '**HTTYD Crackll "you're not dying!" *500 subs special*'** by,** 'bagio138.'**" Announced Agent 101.

Colourful Bleep

"Let's read a fanfic to end this one huh?" said Wolfy, "Mark, may you please do the honors and read out the title and summary, Rocks you can read this one please."

"Um ok. This one is **'Arm Wrestling' **by **'BeyondTheClouds777**.' The summary is: **'****"When we have kids, I hope they are all stronger than you." "Oh no! Anything but that!" Set after my fanfiction, "How Not To Meet Your Ally." Hiccup and Astrid are married. One-shot. Post-HTTYD2.'** Said Mark.

The Astrids and Hiccups blush.

"BeyondTheClouds777 is one of my most favourite authors every. Check her out if you love HTTYD and frequently updated stories." Said Sapphie holding a sign with kanji on it with a giant cookie in her mouth.

"Woah! When did you get here!"

"You'll never take me alive!" Snotlout shouted.

"Oh, I believe I can," said Snotlout's competitor.

"Oh! Oh! What's going on!" yelled YFishlegs.

"Never!" said Snotlout. "NEVER!" He pushed his hand to the left, grunting under the strain. "You cannot defeat me!" he shouted.

"Oh yes I can!"

**Eret slammed Snotlout's hand down on the table, winning the arm wrestle. Snotlout grunted and yanked his arm back, glaring at his opponent. **

"Wait Eret, beated me!" yelled OSnotlout.

"Go Eret!" yelled ORuffnut.

"Who's Eret?" asked YSnotlout.

"A former dragon trapper that you guys meet." Said Mark.

Eret leaned back on the bench, looking satisfied.

"You lost, Snotlout!" said Tuffnut.

**"That's two for me," said Eret. "How about three out of four,

Snotlout? What do you say?"**

Snotlout sighed, put his elbow down on the table, and then got ready to try again. Eret did the same, he and Snotlout clasping their hands together as they got ready to start.

"Three...two...one...GO!" Ruffnut, Tuffnut and Fishlegs counted down. Eret and Snotlout arm wrestled for a full two minutes before Snotlout finally managed to push Eret's arm down on the table.

"WHOO!" he shouted, jumping to his feet and fist-pumping. "I WIN! I always win!"

"You lost two rounds out of three," said Fishlegs.

"I win besides when I lose!" Snotlout corrected.

"Shut up!" groaned Nerdy.

"You don't say," Tuffnut whispered to Ruffnut.

"I want to arm wrestle with Tuffnut," said Snotlout.

"Pfft," said Tuffnut. "Easy. No problem at all. I'll win."

Eret scooted out of the way, Tuffnut sitting where he previously sat. He and Snotlout grabbed each others' hands, and then started the war.

"Go Tuffnut!" said Ruffnut.

"You're cheering for ****_him!?" _**said Snotlout, pushing Tuffnut's hand, trying to get him to give up.**

"Yeah!" said Ruffnut. "Because if I don't, I have to cheer for ****_you_**."**

"I go with Ruff!" called Sapphie.

"Me too!" called the other Wolf Crew members.

"She has a point," said Eret.

"Who's side are you on!?" said Snotlout.

"The right one," said Eret.

"Hey if Tuff beats you, you own me 10 silvers." Wolfy betted OSnotlout.

"Deal!"

Snotlout rolled his eyes, and then found himself overtaken by Tuffnut, who slammed his hand down on the table, defeating Snotlout as if it were nothing at all.

"Give me my money!" yelled Wolfy.

"Yeah!" said Tuffnut. "Arm-wrestling champion!"

"No you're not." Said Agent 101.

"What are you guys doing?" Astrid questioned as she walked over to their table, standing at the foot of it to look at the people sitting around it. "What's with all the commotion?"

"We're arm wrestling!" said Tuffnut. "And I'm the champion!"

"Nu-uh," said Ruffnut. "Because you didn't beat me, Fishlegs, or Eret."

"Well, I could," said Tuffnut. "I'm the strongest of all of us."

"Really?" said Astrid. Tuffnut nodded. "Well, don't mind me," she said. "I'm just going to watch." She took a seat next to Ruffnut as Fishlegs and Tuffnut stepped up to wrestle. Tuffnut was the victor of said round, beating Fishlegs easily.

Next, Ruffnut and Tuffnut arm wrestled for a full two minutes, although in the end, Tuffnut won over just because Ruffnut got distracted. Then, Tuffnut took on Eret, and won after a few seconds, probably only because Eret was getting worn out from all the arm wrestles.

"Damn!" yelled YRuff.

"**_Now_**** I'm the champion!" said Tuffnut.**

"No, you're not," said Astrid.

"Yeah. You haven't challenged me yet." Said PAstrid.

"But I beat everyone," said Tuffnut.

Astrid shook her head. "You haven't even ****_challenged _**me," she said.**

"Oh, well, in that case," said Tuffnut, leaning his elbow on the table in front of Astrid, "shall we fight?"

Astrid grinned, and then set herself up, elbow on the table, hand clasped around Tuffnut's. After the countdown, they started.

Astrid won easily, overcoming Tuffnut without even a second thought. Then, she challenged Eret, defeating him, and then Ruffnut, Fishlegs, and Snotlout, getting the same reactions each time.

"I win," said Astrid. "Champion."

"Woohoo!" yelled the Astrids.

"Hey, guys," Hiccup said, walking over to their table. "What's going on here?"

"We're arm wrestling!" said Snotlout. "Astrid just totally beat all of us."

"Yep, she's champion," said Ruffnut. "Not Tuffnut."

"Champion, aye?" Hiccup grinned. "Well, in that case," he said as he moved over to the bench opposite of Astrid, setting his arm on the table, "she should have no problem beating me."

"Oooooh," said the Ruffnuts and Tuffnuts in unison.

"Oooooh," said Ruffnut and Tuffnut in unison.

"Of course not," said Astrid. "I won't have any problem at all." She put her arm out, and then grabbed Hiccup's hand, intertwining her fingers in his.

"This oughta be good," said Fishlegs. Snotlout, Fishlegs, Ruffnut, Tuffnut and Eret took their places once more, Fishlegs and Ruffnut on Astrid's side, Tuffnut, Snotlout and Eret on Hiccup's.

"I am totally routing for Astrid!" said Ruffnut.

"Me too," said Eret. "Sorry, Hiccup, no offense."

"I'm routing for...Astrid," said Snotlout.

"I'm routing for Hiccup," said Fishlegs.

"I'm going with Hiccup, too," said Tuffnut.

"Okay, so we have Ruffnut, Eret, and Snotlout on Astrid's side," said Fishlegs, "and then me and Tuffnut on Hiccup's side. Three for Astrid, two for Hiccup."

"Okay," said Astrid. "You ready, Hiccup?"

"Astrid, please," said Hiccup, "I was ****_born _**ready."**

"Confident, huh?" asked PValka.

"Good!" said Snotlout. Then, he and the others started counting down, "FIVE...FOUR...THREE...TWO...ONE...ARM WRESTLE!"

**Just as Astrid started pushing against Hiccup's arm, Hiccup leaned across the table, and kissed his wife. **

"Wife being the key word here!" exclaimed Sapphie and Rocks.

Then, as quickly as he had done so, he pulled away, and then pushed Astrid's arm to the table, successfully winning the arm wrestle.

"That's cheating!" yelled PAstrid.

"Yeah!" yelled YAstrid.

OAstrid just punched OHiccup on the arm and kissed him on the cheek.

"Oooooh, wow," said Tuffnut. "He beat her."

Astrid was laughing. Hiccup smiled at her, and then shook her hand.

"Good game," said Astrid, "but that really wasn't fair."

"Well, I'm the champion now," said Hiccup, "and that is a position I am not giving up."

"When we have kids," said Astrid, "I hope they are all stronger than you."

"Oh! I'm going to have grandkids!" cheered OValka.

"Oh no!" Hiccup said with a fake worry. "Anything but that! Whatever shall I do?"

"Just wait, and you'll see," said Astrid.

"Well that was nice." Said Sapphie. "I think we should end this chappie here guys. But also underneath is very important for you guys to read, it's the Wolf Crew form, I have updated it."

"Wha?"

"Huh?"

"Byez!"

Well strange ending but I'm rushing and stuff. Here's the form, so if anyone wants to join PM me or Wolfy. Thanks! Sorry for any errors, new/old laptop that is school hired.

Wolfy has stated that Wolf Crew will have 8 main people so anyone who joins after the eighth will be ghosting members. You will only appear in some chappies. While the main 8 will stay for the rest of the story at will. Ghosting members will be PMed whenever by some other members if they want to join in a certain chappie/s.

Apologies but you are a ghosting member but you will still appear in stories.

Hey guys Sapphie here I'm sorry for being such a bitch (yes i swore I dont wanna do it on but yea, I try not to swear on but I'm still and bitch and hypocrite, as i swear a lot!) for not updating but I will update soon hopefully but high school has given me a giant kick in the arse. I would like to thank all of you for being so patient. Typing down videos are hard, god dammit. Sorry for not being a chappie. :(Well catch yah around, I'm thinking of ending the story soon, I wanna start another one and do more of my Hogwarts one that I have a feeling won't ever be completed.

Peace out guys!

Sorry, been obsessed with FNaF.

11. Chapter 9

Hey guys, Sapphie here, sorry I haven't been updating, I don't have much of an excuse but High school has just kicked me in my arse. So I wouldn't be able to update every week, every so weeks. I'm thinking of ending this chappie at like 11 or 13 cause I wanna start on my next story. I have already said that but whatever. It leaves a bad taste in my mouth leaving a story and abandoning it for so long pretending it doesn't exist. Also with my Hogwarts one, it will update rarely so I apologise for the readers. I have this rule that if I start a story I must finish it to the end. Otherwise, I go against my laws. Well here are some reviews. Also I feel like BLEH! I don't think the rain and storms are helping either. Also another reason why I didn't work on this was because Wolfy was in a car accident. She gave me a heart attack, she just casually texted me that she was on the way to the hospital and I just flipped. She is alright, just a check-up and regular Panadol. I think I need some right now. I'll be right back.

Walks to the kitchen and grabs some Panadol, pour water into mouth and shoves in Panadol. Walks back and slouches on the chair. And starts wailing.

**I DON'T WANNA DO MY HOMEWORK! **

Reviews:

midnightsky0612: You k there? I don't want anyone dying here.

mollienaturerocks: Your welcome. ****J

Inflamora Notoris: What crack do you mean? I'm sorry but don't remember. My memory is worse than a cat's. But do you mean the HTTYD Crack Vid Mine one?

Reader103: I'm sorry but I need to end this one next chappie or something. I want to continue it but I don't have any motivation and High School with drag me down. I'm sorry for disappointing you.

V.L9090 â€“ Veyonce: Yeah, I wanna do that one, not soon but I will do it one day. Maybe during my school holidays. I have them for 3 WEEKS! Back then it was just 2 weeks.

quite tall. **(Sorry but you did tell me what you wear so I haven't do that part.)**

"So Sapphie has said that Brie and Blue can be here for the rest of the story and Sapphie might come back but is sick. Geez, and she tells me to look after myself." Said Wolfy.

"So what are we doing?' asked Nerdy, stroking Ren's fur.

"Um, I'll text her." Said Wolfy looking quite bored, obviously wanting to assassinate some Templars or go shoot down some aliens.

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~A Few Minutes Later~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

"She said make them watch 'Spoof #2 IMAGINE DRAGO.' What the hell is that!" she exclaimed.

"Oh! She took my brother's suggestion!" cheered Agent 101.

"Ok let's get this over and done with." Sighed Wolfy.

"Ok so like I said this one is **'Spoof #2 IMAGINE DRAGO' **by **'HTTYD Lunatic.'** Here is it." Said Wolfy pressing play.

So that is it. The second last or third last chappie of this story. So I have some explaining to do. When I was working on this I was sick so it was sloppy, the first half. Some of it I was working on during class. (Class was boring) Some is when I have free time. Some somewhere else. So this might not flow properly and stuff so I apologise. Sorry for any errors also sorry for not updating in like over a month. I hope you enjoyed, sorry it was rushed but doing videos is hard. I dunno if I have said this already but all members in the Wolf Crew are important, it is just the author's choice for who that want in the story. Happy Easter! I have had way too much chocolate. BUT I AM STILL VERY SORRY FOR NOT UPDATING! Also I won't really swear in my stories but I might, if anyone gets offended tell me. I will try to refrain from swearing. I won't take anymore video suggestions, sorry. I hope you enjoyed. Now I shall spam Fear and Wolfy with stickers on messanger! MUHAHAHA! I AM SO EVIL! :D

PEACE!

~SapphireWolf2002 ^x^

"So we are gonna read, **'Mafia' **by **'BeyondtheClouds777**.**' **One of my favourite all time authors. Ok the summary is: **'****The

youths of the academy are bored. So, they decide to play a little game.'"** Said Sapphie, "BeyondtheClouds777's stories are amazing!"

"So then start reading." Said Derpy.

"I'm not going to read it." Said Sapphie, "He is." Pointing to Fear.

"Why me?" Fear asked.

"I going to do something." Said Sapphie who then puffed away leaving no argument or questions.

"Great. Ok."

"I'm bored," said Tuffnut. "There's nothing to do."

"Yeah, totally," said Ruffnut. "It's snowing too hard to ride our dragons, work at the academy...even though I don't like that...anything, really! We can't even blow anything up!"

"Boooored," Snotlout groaned, leaning back on the bench in the table at the Great Hall. "Does anyone want to hear a joke?"

"Why?" asked YSnotlout.

"You're jokes suck." Said ORuff.

"No!" said Astrid, Ruffnut, Tuffnut and Fishlegs in unison.

"Okay, I'll tell you anyway," said Snotlout. "Why did the skeleton go to the Snoggletog party alone?"

"Why?" said Tuffnut.

"Because he had no body to go with!" said Snotlout.

"I get it. But it isn't funny." Said Rocks.

"No comment." Said Derpy.

Hiccup looked up from his book. "I have no words for that joke."

"I have an even better one," said Ruffnut.

Hiccup groaned. "No, not you."

"Where does Dagur the Deranged keep his armies?" said Ruffnut.

"In his sleevies." Said Wolfy with a bored look on her face.

"Don't know, don't care," said Astrid.

Ruffnut giggled. "In his sleevies!" she said.

"Lame." Said PGobber.

"Seriously?" said Hiccup.

"I have an idea," said Astrid. "Let's turn this into a game of Mafia."

"Oh boy!" said Fishlegs. "You're on!"

"Totally on!" said Snotlout.

"Are you guys sure you want to go on with this?" said Hiccup. "This game gets pretty crazy."

"You're crazy." Said OAstrid poking OHiccup who stuck out his tongue.

"I thought you liked crazy," said Astrid.

"Well, I guess there is a fine line between Crazy and Insanity," said Hiccup. "This game goes far and beyond."

"No, there is you're crazy and insanity and then there is our version of crazy and insanity." Said Rumble.

"Who cares? It's fun!" said Snotlout. "I vote Hiccup's the Mafia!"

"This is so not fair," said Hiccup.

"It's your own fault," said Astrid. "You're too wishy-washy to refuse. Go on, Hiccup. Give us a story to start with!"

"Okay," said Hiccup. "Remember, you have to rhyme."

"Wait a minute," said Fishlegs. "Please explain the game to me again? It's been a while since I've played it."

"Okay," said Astrid. "One person is selected Mafia...in this case, Hiccup."

"Heh heh heh," Hiccup laughed.

"Someone else is the Doctor...in this case, I guess I'll be Doctor," said Astrid.

"The Doctor." Said Sapphie raising her eyebrow smirking.

"Doctor Who?" said Wolfy.

"The Doctor, a Time Lord." Said Rumble.

"But, Doctor Who?" said Agent 101.

"Doctor Who!" said Nerdy.

"You aren't in this." Said Wolfy dead panning at her.

**"Someone else is the Gumshoe...Snotlout, you be the Gumshoe. And

then everyone else are Villagers. The Mafia will start with a story, and then the Doctor continues, and then the Gumshoe, and then Villager One starts, then Villager Two, then Villager Three, depending on how many Villagers there are. But you have to rhyme with each sentence, or you have to drink a cup of Yaknog. **

"I nearly glad it is yaknog and not ale or mead." Said OValka.

"What do you mean?" asked PFishlegs.

"Well for Snoggletog, they decided to play the game with ale that time and it was not nice." OGobber pointing to their future selves.

Plus, you have to do as the game implies. If the Mafia fatally wounds the Doctor, per say, the Doctor can heal him or herself. If the Gumshoe is fatally wounded, the Doctor can either heal them, or leave them to die. The Doctor can heal anyone, too; even the Mafia. The winner of the game is the surviving player. You guys ready?"

"Sure," said Fishlegs. "I'm Villager One, Tuffnut's Villager Two, and Ruffnut's Villager Three."

Behind them, Mulch learned what they were playing, and ran out of the Great Hall, dragging Bucket with him.

"Play it safe Mulch?" said OStoick.

"Don't want to be dragged into I guess." Said OMulch.

Gobber and Stoick sat at a different table, watching them.

"Remember this game?" said Gobber to Stoick.

"Unfortunately," said Stoick.

OValka chuckled, "Unfortunately, huh Stoick?"

Then, the chanting started.

"MAFIA, MAFIA, DEAD OR ALIVE, MAKE YOUR CHOICE AT THE COUNT OF FIVE. ONE, TWO, THREE, FOUR, FIVE, DEAD OR ALIVE," Astrid, Ruffnut, Tuffnut, Fishlegs and Snotlout chanted, clapping their hands to give the speaker a beat to keep up to.

The Mafia (Hiccup) spoke, keeping up with the steady clapping, "The Mafia came to Berk one night, to give its Villagers the perfect fright. He was confused when he saw what others would dare; dragons; dragons everywhere!"

Astrid: "The Doctor raced through, running around, 'Gumshoe, Gumshoe, we have a case to get down!'"

Snotlout: "The Gumshoe lurched forward, his eyes on the speaker, 'Is it the Mafia, or someone weaker?'"

Fishlegs: "A Villager burst in, screaming like mad, 'The Mafia's struck! Everything's gone bad!'"

Tuffnut: "And then the dude said...uh, 'You, are evil,' and..."

"Aaah, you didn't rhyme!" said Astrid. "Drink a cup of Yaknog!"

"Ha ha ha!" teased YRuff.

"Why does Yaknog sound so bad again?" asked PHiccup.

"You will find out." Whispered YSnotlout.

"Drat," said Tuffnut, but complied, shivering as he downed the cup.

"Okay, now we restart, since someone messed up," said Hiccup, and continued; "The Mafia looked around at a vast building stretching wide. 'Maybe, just maybe, I'll take a look inside.'"

Astrid: "The Doctor frenzied; 'He's gonna break in!' The Mafia barged through and looked around with a grin."

Snotlout: "The Gumshoe charged forward, his eyes on his target. But the Mafia was quicker; what people seemed to forget."

Fishlegs: "The Villager shrieked, 'We're all gonna die!' Then the Gumshoe was stabbed, and everyone burst into a cry."

"Guys, you're making me too evil!" Hiccup complained.

"I know right!" whined OHiccup.

"I want to ask, anyone here want to hear a story where Hiccup is evil?" asked Agent 101.

Most nod.

"Sapphie do you know any" asked Rocks.

"I know the perfect oneâ€¦.." said Sapphie rubbing her hands.

Tuffnut: "The other Villagers gasped; one of them screamed. Their situation was worse than it seemed."

Ruffnut: "Villager Three spoke up, 'We'll kill you to death!' The Mafia turned to her, and you know the rest."

Hiccup: "The Mafia stabbed Villager One, the Gumshoe was down, too. Then the Mafia fled without further adieu."

Astrid: "The Doctor was frantic; which one to die? Then she turned to the Gumshoe, and decided to him she would comply. She saved the Gumshoe; Villager One was dead. Maybe, the Doctor thought, she should have saved him instead."

"Why?" said Snotlout.

**"Because you were bugging me," said Astrid. "And sorry, Fishlegs,

but you're no longer in the story. You're dead. You're out. Drink a cup of Yaknog, and get out."**

"Fine," said Fishlegs, but did as he knew he should.

"Fine, let me continue," said Snotlout. "The Gumshoe looked at the dead body on the floor. Then, grabbing a weapon, he ran out the door."

Tuffnut: "Grabbing swords of their own, the others followed; they wanted to see the Mafia's skull...um...hollowed."

"Man, guys, that's ****_nasty_**," said Hiccup. "You guys are making me sound so mean!"**

"Yep." Said YHiccup.

"That does sound nasty." Said Blue.

Ruffnut: "On their way out, however, they ran into trouble. Villager Three watched as the Mafia stabbed her double."

"SEE!?" said Hiccup. "How rude!"

"Your turn," said Astrid.

Hiccup: "The Mafia laughed, 'It's far too late for you.' Then, he turned and fled, without further adieu."

"You used the same rhyme twice!" said Astrid. "Drink a cup of Yaknog!"

Hiccup groaned, shuddering when he downed the cup and set it back down on the table. He really never wanted to taste Yaknog again.

Astrid: "The Doctor looked at the wounded boy and frowned. This was it; the boy had been downed. She couldn't save his life; another villager's death, when the young man lurched forward and breathed his final breath."

"This is why I hate this game," said Tuffnut. "Now I have to drink ****_another _**cup of Yaknog!" He frowned as he downed the cup and sat on a separate table next to Fishlegs.**

"Okay, let me start up again," said Hiccup. He cleared his throat, "The Mafia raced back to see if he was followed. He wasn't in the mood for his skull being hollowed."

Astrid: "The Doctor saw, however, and called out, 'Hey, you!' The Mafia turned and bolted, looking for more crimes to spew."

Snotlout: "The Gumshoe ran after them, ready to inspect. And then...the Mafia...killed his life-"

"Aha, no rhyme!" said Ruffnut. "Drink some Yaknog, and the game continues!"

**Snotlout did as he was told, and then waited for Ruffnut to do her

part.**

Ruffnut: "Villager Three wandered aimlessly, bored out of her mind. But her walk was delayed, and quite poorly timed. The Mafia ran into her, knocking her down. Villager Three stood up again, her face in a frown."

Hiccup: "The Mafia ran on, not even looking twice. He didn't think a second take would exactly suffice."

Astrid: "The Doctor ran forward, the Villager beside her, watching the Mafia run...into a case of apple cider?"

"Nope," said Hiccup. "Drink some Yaknog, and the game continues."

Astrid shuddered as she swallowed her own creation. "Never let me in the kitchen again," she begged Hiccup.

"Yep." Teased YHiccup earning him another punch. "Ow!"

Hiccup laughed. "Okay, Gumshoe, continue."

Snotlout: "The Gumshoe turned and ran, seeing the Mafia coming his way. He didn't think it would be smart to really stay."

Ruffnut: "But then the dude crashed into a tree, and fell to thre ground; lifeless was he."

"All this death," said Hiccup. "It's not cool."

"Hiccup, it's just a game," said Astrid.

"Anyways, it's the Mafia's turn," said Hiccup, grinning. "The Mafia ran on, his heart all a flutter, ignoring the noise sounding much like a clutter."

Astrid: "The Doctor looked over the dead body of the man. The Gumshoe was dead; time for a new plan."

Ruffnut: "The Villager and the Doctor followed the Mafia; and...what rhymes with Mafia?"

"Wrong," said Astrid. "Drink some Yaknog, and then we'll continue the game."

Ruffnut drank a cup of Yaknog and waited for Hiccup to go on.

Hiccup: "As the Villager and Doctor were running, they both crashed into the killer. They tumbled down the hill; it was actually quite the thriller. But they were all severely injured; only one would be cured. One look at the three of them, and the thought was insured."

Astrid: "She was given a choice: The Mafia, the Villager, or the Doctor's own life. The Doctor made a choice; one that was precise. She saved herself, leaving the others to die. The Mafia was dead, although it was a nice try."

"Astrid wins!" said Hiccup. "But really, did you have to make me die in the end?"

"I couldn't exactly make you live, now could I?" said Astrid.

"I suppose not," said Hiccup.

"Okay, Ruffnut, Hiccup drink a cup of Yaknog, since you guys lost," said Astrid.

They did so.

"Let's play again!" said Tuffnut. "This time, I'm the Mafia!"

"And I nominate Hiccup as the Doctor!" said Snotlout. "He's too nice to save himself."

"That is true." Said Rumble.

Hiccup rolled his eyes and smiled. "Okay," he said. "Tuffnut, start us off!"

THE END

"So what is the story where Hiccup is evil?" asked YTuff who was too excited for some reason.

"It is from series of one-shots called, **'How to Train Your Dragon one-shots' **by **'HorrorFan6**.**' **The chosen chappie is chapter 17 called, **'Firey Vengeance**.**'**" Said Sapphie. "But I will warn you, there is major blood and gore, if anyone has a distaste for blood and violence please stand up."

The Fishlegs, Hiccups and Valkas stood up.

"So you guys can sit to the side in case you need to puke or not listen and the children aren't allowed to listen, they can go play with the dragons." Said Sapphie, the Fishlegs, Hiccups and Valkas shifted to the side near two doors labelled 'Outside' and 'Bathroom.' The children were ushered through the door labelled 'Outside.'

"Are sure you can handle it?" asked Wolfy teasingly.

"We're Vikings!" shouted a Viking.

"I can handle it." Said YSnotlout puffing out his chest.

"Don't blame me if you get scared or sick." Said Sapphie, "So Wolfy can read this one. Also the introduction is from the movie but the rest is by the author."

"Let's start." Smirked Wolfy who grabbed the laptop and began to read. **(I had to hand type some of it as my Wifi was busted andâ€¦. I AM GOING CRAZY!)**

"â€¦**_leaving! _****We're leaving! Let's pack up! Looks like me and you are going on a little vacationâ€¦" Hiccup paused and dropped his bag to the ground. "â€¦forever."**

"WHAT!?" shouted everyone bar the Hiccups and Astrids.

"I remember this." Said YAstrid.

Toothless warbled questioningly from his spot by the lake, tilting his head to the side as if to ask, "Leaving? Why are we leaving?"

"That's what I want to know." Said YStoick frowning.

"Toothless, we can't stay here anymore," Hiccup explained, kneeling down and unwrapping the bundle at his feet. "They want me to kill a dragon. No," he huffed and corrected himself, "they ****_demand _**that I kill a dragon. It's tradition, they say. It's the Viking way. And nowâ€¦" He groaned. "Gods, I'm so stupid. I should have let Astrid win dragon training. Then this would be her honor and not my nightmare. I was so focused on winning my father's attention that I didn't stop to think about what this was all leading up to."**

The Stoicks' faces fell.

He stopped and looked up at Toothless. The Night Fury was watching him with wide, concerned eyes. He crooned and sidled up to where his human was now sitting, his head in his hands. He nudged Hiccup with his head, and the young Viking smiled weakly. "Thanks, bud." He sighed and stood up, moving over toward the dragon's tail to attach the prosthetic fin. "Let's get you saddled up and then we can get out of here for good. Just think of it, bud: no more hiding, no more pretending, no more sneaking off for a few hours of happiness. It'll just be you and me, bud, with nothing and no one toâ€”"

"Not so fast."

The voice made Hiccup yelp and spin around to face its source. Toothless' eyes narrowed as they settled on the newcomer. It was Astrid, and she was livid. She held her axe aloft, the shining silver blade pointed in the general direction of Hiccup's throat.

"Oh no." said the Astrids.

"So," she said, her chest heaving in a combination of terror and triumph, "this is where you've been sneaking off to after every lesson. This is why you suddenly got so good at dragon training. You cheated your way to the top. I should have known. No one gets as good as you without foul playâ€¦**_especially _****you."**

"I'm sorry." Whispered OAstrid.

"It's ok." Said OHiccup giving her a small smile.

Her words cut through Hiccup like the blade of a knife, but he had much more pressing matters to deal with. His brain was buzzing as he struggled to find some way out of this predicament, but he could find no loophole or escape. And meanwhile Astrid was slowly approaching, her axe still held up, the early-evening sunlight reflecting off its perfect blade.

**"Astrid, please," Hiccup began, holding his hands up, placating. "You have to give me the chance to explain. Dragonsâ€¦they're not

what we think they are. They aren't mindless killing machines. Theyâ€¦they're smart, intelligent, and compassionate creatures that deserve respectâ€”"**

"Respect?!" Astrid repeated, sounding outraged. "Respect?! Those monsters destroy our village and steal our food! They have killed us in droves! And you want to give them ****_respect_**?! You're so much dumber than I thought!"**

Hiccup winced at the insult but continued his attempts to talk her down. Behind him, Toothless was tensed up, eyeing the approaching girl warily. Every instinct in him was roaring for him to attack, but he refrained for his human's sake. He could sense that the boy wanted to win the girl over, and even though he couldn't see anything good coming out of it he decided to hold back, waiting, watchingâ€¦

"They only kill us in self-defense, Astrid!" Hiccup said. "If someone came running toward you wielding a sword or axe you'd do the same, right? You can't blame them for trying to protect themselves!"

"The Hel I can't!" Astrid shrieked. She took a step closer. Hiccup could see that she was trembling, though whether it was out of rage or fear he didn't know. "We are Vikings, Hiccup! And Vikings kill dragons! It's a part of who we are! And if you can't accept that, then you're not a Viking at all! You're ****_nothing_**!"**

And with that, she hurled the axe at him.

Hiccup gasped and raised his hands in pitiful self-defense, knowing that they'd do no good. That blade was sharp enough to cut right through his fingers and he knew it. In the unending second before the weapon met its mark he thought, ****_Gods, she's actually trying to kill me! I knew she hated me but I never thought she'd try to kill me!_

There was a flurry of motion and Hiccup suddenly found himself on the ground, looking up at a wall of black scaly flesh. Toothless had rushed to defend his human, shoving him out of the way and into the axe's path. He roared in rage and pain, and Hiccup felt his stomach drop.

"Toothless!" he cried, bounding to his feet and rushing forward, praying to every god he could think of that his friend wasn't too badly hurt. He was lucky: the axe had hit Toothless at a bad angle and merely ricocheted off, leaving no more than a nasty-looking yet comparatively minor scratch on his shoulder.

The Hiccups petted their respective dragons.

Hiccup's relief lasted no more than a couple of seconds, however. It was immediately replaced by a rapidly-growing sense of rage. He slowly turned to face Astrid, who was staring open-mouthed at them. ****_It defended him! _**she was thinking, her brain utterly unable to cope with the reality of what she'd just witnessed. ****_That monster actually protected that traitor!_**

**She was so stunned that she didn't immediately register when Hiccup stormed over to where her axe lay on the ground and hefted it up. The

adrenaline and hate coursing through his veins gave him the energy he needed to lift the heavy weapon, a feat he wouldn't have been able to accomplish under normal circumstances. As it was, he raised the lethal tool in both hands, holding it to the side as he stepped toward Astrid, the girl he'd once idolized and adored. His vision was tinted with a red hue that he didn't fully understand at the moment, and he didn't particularly care to figure it out. All he knew was that fury was churning in his stomach, an emotion he wasn't very familiar with. ****_She could have killed him! She could have killed Toothless! All in the name of tradition, a tradition that she follows blindly and without reason! How dare she! How dare she try to kill my only friend!_**

When he was a couple of feet away Astrid finally realized what he was about to do, and by that time it was too late for her to do more than take a few hasty steps backward. But she was still fully within range when Hiccup drew his arms back and swung the axe around with all the strength his rage could muster. There was a sickening ****_thwack _**as the blade embedded itself in Astrid's abdomen.**

"Oh my gods." Said a Viking.

"Told you." Said Sapphie.

The Fshlegs ran out of the room, the Meatlugs following.

The Hiccups' eyes widen and they look down all silent.

Astrid opened her mouth to scream but all that came out was a ****_whuff _**of air. She doubled over, her eyes wide and popping out of their sockets. She was too shocked to feel any pain at first. Slowly, her head tilted down so that she could see her own trusted weapon in the traitor's hands, blood pouring and pumping from her opened flesh, spilling over the blade and marring its perfect shine. She watched her lifesource flow from her body in a strangely detached way for a moment, as if she couldn't quite believe what she was seeing, as if it was happening to someone else and she was just an observer.**

And then the pain hit her, and she realized that this was really happening, happening to her, that she was wounded and dying, and that Hiccup, the useless little runt Hiccup had done this to her. It was this more than anything that made her inhale and let out a garbled scream.

Hiccup wrenched the axe out of her body and she staggered, falling weakly to her knees, hands coming up to cover the mortal wound, as if by concealing the gash from view she could stop it from bleeding. She looked up at Hiccup and their eyes met. His face was contorted in fury, deep lines etched around his eyes and mouth, giving him a downright demented appearance.

"You're right, Astrid," he hissed through gritted teeth. "I'm not a Viking. And you know something? I don't want to be."

Astrid could only whimper in reply.

**Hiccup raised the axe again, this time lifting it above his head. "N-no," Astrid choked, blood dribbling down her chin as she held one

hand up. "P-pleaseâ€¦"**

But Hiccup was beyond listening to pleas. He paused with the axe at the apex of its ascent. Then, in one swift movement that would have made any Viking proud, he brought his arms down in a perfect rushing arc.

There was a second ****_thwack _**as the blade sank into Astrid's head, burying itself in the golden hair Hiccup had so often fantasized about.**

The Hiccups ran out of the room with the Toothlesss bounding after them.

Astrid's body seized up for a second before relaxing and going into a series of spasms. Then she went completely limp and still.

Hiccup pulled the axe out of her skull and her body collapsed to the ground, blood and bits of brain tissue pouring out onto the grass at his feet. He stood motionlessly for a several minutes, staring down in detached fascination at the dead girl. Behind him, Toothless crooned worriedly.

The Valkas were next to leave, the Cloudjumpers following.

"Oh my goodness." Said Agent 101. "I think I'm going to be sick.'

Slowly, Hiccup turned around to face the dragon. His face was expressionless, but his eyes were cold and calculating, a look Toothless had never seen in those green orbs before.

Then he said quietly, "You know what, Toothless? Before we leave, I think there's something I need to take care ofâ€¦"

â€¦

Night fell on the little Isle of Berk, and Stoick was starting to get worried. He knew Hiccup had a tendency to stay out late sometimes and he normally didn't fret over it. But the boy's final exam was tomorrow, and he needed to get some sleep if he was to be at the top of his game come morning.

"Come on, Hiccup," he muttered under his breath as his eyes scanned the quiet village. "Where are you, lad?"

The only answer he got was the quiet call of a sheep somewhere in the gathering darkness.

Stoick sighed and stepped into the house, sitting heavily in front of the fire. He was going to give his son a stern talking-to when he got home, that was for sure. He was the future chief of the tribe; he couldn't just disappear like this for hours on end and not tell anyone where he was going or when he'd be back. It was downright irresponsible.

My sonâ€¦chiefâ€¦

He let that thought turn over in his mind for a moment. He'd always known that Hiccup was next in line to be chief, but up till now the knowledge had always brought with it a mixture of disappointment and embarrassment. For Thor's sake, the boy couldn't even lift a hammer properly, let alone lead an entire village! He'd often wished his son had turned out more like his cousin Snotlout: big, strong, unafraid, and unquestioning of tradition. Instead his boy was small, weak, practically scared of his own shadow, and always coming up with harebrained solutions to nonexistent problems. For nearly fifteen years Stoick had dreaded the day he'd have to pass off his title to his son, knowing that the day he did would be the beginning of the end for Berk.

The Stoicks looked down and covered their ears, letting out silent tears.

But nowâ€¦now his boy had placed first in dragon training. Now his boy was starting to become the true Viking he'd always wanted him to be. Now he could step out into the village without having to be ashamed or embarrassed. It had been a rough and trying fifteen years, but it finally seemed like Hiccup was coming around. Maybe now everything would beâ€”

"Dragon attack!"

Stoick leapt to his feet and rushed to the door, throwing it open, his heart suddenly hammering in his chest. Another raid? So soon after the last one? They weren't prepared! Gobber had been so busy with training the teens that he hadn't had time to replenish their stock of weapons, and they were running dangerously low on livestock.

Butâ€¦

He frowned. Stoick had never been the brightest of Vikings, but even he knew that these dragon raids always involved great multitudes of the cursed beasts. They would be swooping and soaring seemingly without number, making it impossible to determine exactly how many there were.

But right now, there were only five. A Deadly Nadder, a Gronckle, a Hideous Zippleback, a Terrible Terror, and a Monstrous Nightmare. And they were all flying in what seemed to be a uniform pattern. Odd.

But wait a minuteâ€¦

Stoick squinted up at the incoming dragons as the village below scrambled to get ready to fight. There was something else there as well, something he hadn't noticed before, something that seemed to blend in with the night skyâ€¦

Oh godsâ€¦

A Night Fury**.**

The moment he realized what he was seeing, Stoick heard the telltale screech and instinctively dove out of the way. The next second, his house exploded in a great fireball.

But it wasn't the attack that made Stoick's heart stutter. It was the sound that came immediately after.

"**_Great shot, bud!_****"**

Stoick's breathing hitched and he looked up at the once-more invisible Night Fury. Was thatâ€¦noâ€¦it couldn't have beenâ€¦could it?â€¦

The Stoicks had enough and left.

As Stoick struggled to grasp what was going on, Hiccup adjusted his foot in the stirrup and directed Toothless to fly over the village. "All right, bud," he said, and Toothless' ear fins twitched. "Tell them what to do. Give 'em your worst. ****_Make them pay for what they've done to us!_**"**

Toothless nodded his head once and roared to the other dragons flying around them, the ones he and Hiccup had freed from the training arena. At the Night Fury's command, the five dragons dispersed and swooped down, descending upon the Vikings who were woefully unprepared for such an assault.

While the Terror wasted no time in shooting fireballs at anything that presented itself as a target, the Gronckle landed in the middle of the village square and roared, her great teeth glinting in the glow of the burning buildings around her. Her yellow eyes landed on Fishlegs, who was advancing with shield and knife in hand, looking terrified. The Gronckle sized him up and, apparently determining he wasn't much of a threat, turned away to attack a brawnier Viking. Perhaps relieved that the dragon wasn't paying him any attention, Fishlegs stepped forward, raised his knife, and plunged it into the Gronckle's skin. Or he would have, except that the blade snapped on impact, unable to penetrate her thick hide.

The dragon felt the attack, however, and turned to glare at Fishlegs, who suddenly gulped. Dropping his shield, he turned to run. But he didn't get farther than a few steps. The Gronckle swung her bludgeon-like tail around, and the spiked ball at the end collided with the boy's head, caving it with a horrible crack. Fishlegs collapsed, twitching, and the dragon turned away.

"I'm glad the Fishlegs and the Meatlugs aren't here." Said Rumble.

Watching from above, Hiccup felt a momentary pang of regret. Fishlegs had been the least cruel to him of all the teens, never actively participating in the cruelty perpetuated by Snotlout and the twins.

The twins and Snotlouts looked down in shame, their dragons trying to comfort them.

But, he reasoned, he'd never come to his aid, either. And really, that made him just as bad. So Hiccup shook himself free of his remorse and turned to watch the battle unfold beneath him.

**There was a flash of light and Hiccup looked up in time to see the Great Hall erupt into flames. The Nadder turned away from the blazing building, squawking in delight, spurting its white-hot fire at

anything that moved. One by one and in great groups, Vikings fell to its ferocious heat. The Nadder lashed out with her tail, sending poisonous spikes careening into people's bodies, their chests, their stomachs. Hiccup smiled in grim satisfaction as he surveyed the destruction. This was chaos on a level that even the twins could ever have imagined.**

And speaking of the twinsâ€¦

Hiccup saw that Ruffnut and Tuffnut were engaged in battle with the Zippleback. He raised his eyebrows in amusement at the irony: two heads, one for each sibling. Then he laughed aloud. Really, the dragon had an unfair advantage, as the twins were so busy squabbling with each other that they weren't even focusing on the dragon in front of them.

Tuffnut raised his sword to bash his sister's helmet with the hilt, and seeing the upraised weapon, the Zippleback went on the defensive. The head on the left lashed out, its teeth sinking into Tuff's upraised hand. Tuffnut shrieked in sudden pain, his sword falling from fingers that he suddenly couldn't move. The dragon tightened its hold, his teeth sinking further into the flesh, blood squirting from severed vessels. A moment later, Tuff's entire hand came toppling out of his mouth.

Tuffnut staggered backward, gazing down in mute horror at his bleeding stump. Normally one to revel in destruction and pain, he found himself utterly beaten by the sudden loss of his hand.

The Tuffs felt sick.

From his spot in the sky, Hiccup saw three Vikings charge the Zippleback. Both of the dragon's heads were focused on the twins, so he didn't see the incoming threat. "Toothless, fire!" Hiccup directed, and Toothless obeyed, sending a blast of purple fire down at the warriors. All three of them were blasted off their feet and lay motionless on the ground, their skin charred and blackened.

The Zippleback, feeling threatened by the proximity of the attack, zeroed in on Tuffnut, who was still staring down at his bleeding arm. His face was pale from loss of blood, and he was starting to sway drunkenly from side to side. He staggered forward, and in his hyper-wary state the Zippleback saw this as an attack. So he defended himself: he reached down and bit Tuffnut's head clean off its shoulders.

Tuffnut's screams lasted only a moment. The second the dragon's teeth severed his windpipe he fell silent once and forever more. The dragon raised its head and spat out the mass of blond hair and pale flesh, which rolled to a stop at the base of Tuff's body. He stood standing for a second or two, blood pumping from the torn and ragged neck, before his knees buckled and he collapsed, a pool of red spreading across the ground around him.

The Tuffs stood up.

**Ruffnut didn't have time to mourn her lost brother. Indeed, she was so preoccupied with the dragon's second head that she wasn't fully aware that her twin had been killed. She was swinging her sword left

and right in wild, unorganized slashes that weren't even close to hitting her mark. The dragon was keeping his head far enough back to stay out of range and Ruff didn't dare get any closer.**

Now that the head on the left was done with Tuffnut, the two heads conferred for a moment. Then the right head opened his mouth and let out a thick cloud of gas that totally engulfed Ruffnut. Her eyes widened as she realized what was about to happen, but before she could do anything more than gasp, the other head let out a spark.

There was a gigantic explosion that sent Ruffnut rocketing backward. From his position in the sky, Hiccup couldn't tell at what point she died. It might have been in the initial explosion, or it could have been when she hit a wooden beam with enough force to shatter her skull, leaving a splotch of blood on the spot where she'd struck. Either way, Hiccup nodded once in cruel satisfaction and turned away to watch the rest of the battle unfold.

Then the Ruffs stood up and ran, the Tuffs also and their dragons.

The Terrible Terror had been cornered by a horde of furious Vikings and was looking up in fear at its assassins. Hiccup pointed and said, "Go, Toothless! Free that Terror!"

Toothless swooped low and fired two shots, which effectively eliminated the five hulking figures that had been about to kill the Terror. The little dragon squawked in thanks and took off again. Its shot limit spent, it flew away from Berk without looking back.

From his position atop the hill, Stoick watched as his village fell to pieces. He was flabbergasted. It was six dragons total, for Thor's sake! They'd faced five times that number before and still won the battle! How could they be winning now when they were so outnumbered?

Hiccup**, he thought, and black rage filled his heart. ****_They're winning because of Hiccup. He's taught them how to kill us more efficiently. This isn't a raid for food. This is a direct attack. And Hiccup's behind it._**

Swelling in fury, he stormed down the hill in the direction of the forge. He'd be damned if he was going to stand back and let his son destroy the village. Heir or not, Hiccup wasn't going to get away with this.

Hiccup didn't see Stoick. He was looking instead down at the Monstrous Nightmare, which had set itself ablaze to keep back the ring of Vikings that had surrounded it. Among them, he noticed, was Snotlout, who as usual was trying to act fearless and tough. But Hiccup could tell from his stiff posture that he wanted nothing more than to get as far away from the flaming dragon as possible.

**Hiccup smiled coldly. Snotlout was always bragging about how he was so brave and so tough. Now was the perfect chance for him to put his money where his mouth was. He directed Toothless to fire at the Vikings surrounding the Nightmare one by one until she was left alone

with Snotlout, who visibly paled in the light of the dragon's fire.**

"What's the matter, Snotlout?" Hiccup yelled, and his cousin looked up in surprise. "You're not scared, are you? After all, it's just a dragon, and you can kill those in your sleep, right?"

Snotlout was too stunned and too scared to even begin to come up with a reply. He merely gaped up at his scrawny cousin riding astride the legendary Night Fury.

"Yak got your tongue?" Hiccup called. Then he ordered Toothless to fire. Snotlout leapt backward with a yelp as the blast just missed him.

"Who's the useless one now, Snotlout?" Hiccup roared.

Toothless fired again, forcing Snotlout back another few steps.

"I want you to think about every time you pushed me down," Hiccup continued. "Every time you called me 'Hiccup the Useless.' Every time you said I was worthless or a sorry excuse for a Viking. Every time you put me down again and again and again. And I want you to keep thinking about those times! How does it feel, Snotlout? How does it feel to be on the other side of the attacks? How does it feel to be weak and powerless to stop your tormentors?"

The Snotlouts were silent but had enough and left as well, their dragons in suit.

Snotlout didn't answer, but he leapt backward once more as Toothless fired again.

"It doesn't feel so good, does it?" Hiccup bellowed, noticing but not caring that every Viking still alive was staring up at him in mute bewilderment and horror. "And it only gets worse, cousin. It only gets worse!"

Toothless fired one more time, and Snotlout jumped out of harm's way. But he was so intent on dodging the Night Fury's attacks that he'd completely forgotten about the Monstrous Nightmare just behind him.

He remembered it quickly though when his back collided with the dragon's flaming hide.

In a flash, his clothes ignited, fire sweeping up and down his entire body and engulfing him in flames. He screamed and staggered, thrashing and waving his arms wildly in a vain attempt to put himself out. Someone yelled for water but no one ran to retrieve any; they were all too enraptured by the spectacle unfolding before them. Before long Snotlout's screams were silenced as his vocal cords were incinerated. His skin seemed to melt away, great chunks of charred, blackened flesh falling from every extremity. He stumbled, fell to his knees, and then hit the ground with a heavy and final thud. He didn't move again.

And now Hiccup turned to face his father.

Stoick and Gobber were both standing at the entrance to the forge, watching Snotlout burn to death with identical expressions of utter terror on their faces. Stoick was the first to turn his gaze upon Hiccup, and when he did his eyes hardened. He raised the hammer he held in one hand. "Get off that dragon, son!" he commanded. "Get down here this instant!"

Hiccup laughed, a harsh, echoing sound that contained absolutely no mirth. "No way!" he said. "Do you think I'm so stupid as to deliver myself right into your hands, Dad? Please, give me ****_some _**credit!"**

Gobber tore his eyes away from the burning body of what had once been a teenage Viking and looked up at Hiccup and the Night Fury. The dragon's eyes were bright green and filled with hatred, their pupils dilated into slits. He swallowed thickly and called, "Easy now, Hiccup. Everything's gonna be okay. Just come down off that dragon and we can sort all this out."

Hiccup's smile faded as his eyes shifted to his mentor. "I like you, Gobber," he said in a flat, emotionless voice. "I don't want to hurt you. Please don't give me a reason to."

The Gobbers had tears in their eyes and had enough and left, with Grump following.

Gobber hesitated for a moment, glancing over at Stoick. Then he said, "Hiccup, why are you doing this? Will you please tell us that? Why have you turned on us?"

Hiccup considered this question for a second or two. "Because I'm tired of being the runt. I'm tired of being a hiccup. I'm tired of being looked down on because I'm too small, too weak, too unsatisfactory in every regard to be a proper Viking. I'm tired of my father's disappointment, my tribe's rejection, my peers' taunts. But nowâ€¦now I've found creatures that accept me for who I really am. I don't have to pretend around this dragon." He rested a hand on Toothless' head. "Being on a dragon gives me power, a strength I didn't know I possessed. With this dragon I learned things, things that you narrow-minded fools never imagined. These aren't bloodthirsty monsters but wise, intelligent creatures with souls as real as yours and mineâ€”"

"They are beasts!" Stoick roared furiously. "They are pests and nothing more! To suggest a dragon can be trained is preposterous! The most ridiculous thing I've ever heard!"

"Astrid thought so too," Hiccup said. His voice was quiet, but his voice seemed to echo in the eerie silence. "She said pretty much the same thing before she attacked me and hurt my friend." He reached back and shoved a large, oddly-shaped bundle off Toothless' back. It plummeted to the ground at Stoick and Gobber's feet, and both men gaped down at Astrid's pale and bloody body. Her eyes stared blankly up at them, forever gazing at some unseen horror that would never go away. "She has paid for her mistake," Hiccup continued. "I urge you to avoid making the same error."

**Gobber looked back up at his apprentice. "Hiccupâ€¦this isn't the Viking wayâ€¦we hunt dragons, we kill themâ€¦we don'tâ€¦we don't

befriend themâ€¦" His tone was pleading, placating, the voice of a parent telling a toddler to gently put down a sharp knife they're playing with.**

His tone did nothing to soothe Hiccup. "Then maybe the Viking way needs to change! Or is that concept too difficult for your simple minds to fathom?"

"Hiccup, pleaseâ€”"

"No!" Hiccup interrupted. "Either you are with me or you're against me. There is no middle ground. Not anymore, Gobber. And if you're not willing to see my side, then I have no use for you."

Toothless opened his mouth and fired a blast of purple fire. It hit Gobber in the stomach and sent him hurtling backward into the forge. He collided with a central support beam, which snapped under the force of impact. Next second, the entire building collapsed with a great thundering crash.

Now Hiccup and Stoick faced off.

The chief opened his mouth to speak but Hiccup cut him off. "Don't bother, Dad. I don't want to hear anything you've got to say. I've spent fifteen years in your shadow, always trying to please you. And what do I get in return? Nothing but cold silence and never-ending disappointment. Well I'm done. I'm done trying to make you proud, Dad. Because making you proud would mean defying who I am, doing something that I know is wrong. I'm sorry I couldn't be the son you always wanted." His voice started to waver slightly as nearly fifteen years' worth of pain threatened to overcome him. He reached back and grabbed the handle of Astrid's axe, lifting it high into the air. Stoick stared up at him in mingled shock, fury, and â€“ was it possible? â€“ even fear.

"I'm not one of you," Hiccup said coldly. "I never will be."

And with that, he hurled the axe. It spun blade-over-handle through the air toward the chief, who had no time to defend himself in any way.

The blade embedded itself in Stoick's face with a spray of blood.

Hiccup didn't stay to watch his father's body fall. He didn't see the few surviving Vikings rallying around their fallen chief. He didn't even bat an eye at the realization that he'd killed the only family he had. He ordered Toothless to ascend and call a retreat. The Night Fury roared, and as one the other dragons rose into the air, following their newly-appointed leader and deliverer. Then Hiccup directed Toothless out toward the open sea, away from Berk, away from the only home he'd ever known.

It wasn't until Berk was a bright speck on the horizon that Hiccup finally allowed himself to cry.

And the rest cried as well, bar Mildew, the old man is heartless.

By the end of the story most had left and only a handful were left

and only some Wolf Crew Members were left.

"Well that was lovely." Said Wolfy sarcastically.

"How about we all take a break." Said Rocks.

Everyone else nodded and everyone went through the door that lead outside. As they opened the door a bright light enveloped the room and revealed a giant garden with some shady trees, some dragons and a table of food. In the sky was the Hiccups flying around and doing some stunts.

"Woahâ€¦." Said one of the Vikings.

"WOOOHHHOOO!" yelled OHiccup deploying his flight suit.

"WOAH!" yelled the PTeens, even though they have seen it before, it never gets old.

Under a tree was the Stoicks, Valkas and Gobbers talking.

"Who wants cream tarts?" said Sapphie jokingly summoning out an army of tarts behind her floating in mid
air.

"NO!"

~Mjorlnir actually budges

~The look on Thor basically says, 'Oh cr p'~

"Heh! His face is basically saying oh cr-!" said Wolfy who was stopped mid-sentece again by Sapphie who opened a fan right in front of her face causing her to stop before any swearing happened.

"We need to keep this a minimal swear story. You can swear later." Said Sapphie who gave a look at Wolfy.

~Steve relaxes a second then gives no more tug but to no avail it does not work and he gives a breath~

~Thor laughs, in relief, and speaks~

"Ha ha. Nothing"

~Shifts over to Bruce doing a gesture to Natasha~

~She speaks~

"Oh, no no no. That's not a question that I need to answer to."

"Yep." Said Rocks and Agent 101.

"I don't want to humiliate myself like a certain someone over there." Teased Blue who jabbed a thumb over the PSnotlout who was wearing a short skirt. Furiously holding it down and staying silent. Sapphie had given him something to wear but she gave him a short skirt, he did argue but Sapphie threatened him that if he were to complain that the skirt would be shorter.

~She takes a sip of beer~

~Changes back to Thor~

~Tony is speaking off screen~

"The handle is imprinted."

~Zooms out to see Tony and the others~

Whoever is wearing Thor's finger prints is the literal translation."

~Changes to Thor getting up and speaking~

"Well that is a very interesting theory but I have a simpler one."

~He picks up the handle and does a 360 toss and catches it~

"Your all not worthy."

~Laughter is heard but then is silenced to by a loud sharp humming~

~Some stand up and look off screen~

~Fades black~

~Pan up to Ultron staggering, and looking as scary as hel~

"How could you be wor-"

"Well I'm not showing all of it. You just have to wait and find out you selves. Sorry I accidentally paused too late." Said Sapphie pausing the screen that had managed to freeze on the next frame showing Ultron who looked scary as hel.

"I have seen hel." Said OHiccup.

"Yep." Agreed OSnotlout.

"That was awesome and scary!" cheered YTuff.

"Next one!" shouted Derpy.

"NO! MORE AVENGERS!" yelled Wolfy and Fear.

~~~~~~~~~~~~~~~~~~~~~~~~Hours of Wolfy and Fear complaining~~~~~~~~~~~~~~~~~~~~~~~~~~

"Ok! Time for Nyan Cat!" smirked Sapphie.

"Umâ€¦. Do we have to watch it?" asked Blue.

"If you want to." Replied Fear.

"Ok, I'll needâ€¦.. The Haddocks, you too Gobbers and you Toothlesss, and the teens. I think that's all." Said Sapphie looking at her clipboard. "Come with me."

Then they all puffed away in blue smoke.

"They are screwed." Said Wolfy, who was still drooling on the inside.

"Yep." Said the other members.

pop

The screen turned on to see the Hiccups together in a section of the screen, the Astrids and so on.

"Alright are you guys ready?" asked Sapphie on the PA.

They nodded one by one.

"Let's go!"

'Sapphie: Sorry. But you're welcome Toothless.'

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~The Audience~~~~~~

"HAHAHA!"

"KEEP IT UP! ONLY 9 HOURS AND 59 MINUTES TO GO!"

"PPFFFTTTHHHH!"

"I CAN'T TAKE IT ANYMORE!"

"I AM SO GLAD I'M NOT IN THERE!"

"KEEP IT UP TOOTHLESS!"

"I'M HAVING A SEIZURE!"

"DERPY'S HAVING A SEIZURE!"

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~10 Long painful hours later~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

"Are my ears still bleeding?" asked PToothless.

"Nope." said Sapphie.

"No more please!" whined the others.

The audience was still laughing.

"I think I'm still having a seizure!"

"My brain is dying. I'm dying." Whined YAstrid.

"Tell my family I love them!" whined OHiccup who mock died, falling into his chair.

"No Hiccup!" yelled OValka, laughing at her son's humour after their 'torture.'

"No! Son!" shouted OStoick pretending as well.

"I'm dying too!" shouted OGobber, who then proceeded to mock die but fell onto the hard ground, "Ow!"

"Not Gobber too!"

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~A While Later~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

"Ma head hurts!"

"Gobber quit whining, it's your fault for falling onto the floor."

"AWW!"

Bang!

HUFF!

"Sparky quit it!" groaned Sapphie. Sapphie was in her pyjamas, no let me rephrase that. A Toothless onesie, **(I wish I had one!)** and Sparky was pissed. That her rider forgot to feed her.

(note: this bit is written by me, Wolfy! If you like my writing check out my fanfiction page) (Sapphie here I edited some of it :P Don't tell Wolfy Also I copy pasted it from my other story so they could link. But I edited this one.)

So Sapphie had to wake up in the middle of the night, needing to feed Sparky as she was whining from hunger and nudging her. More like pissed at her and firing star bolts at her. All of a sudden, a mysterious hooded figure swung in, yelling "FUS RO DAH!" At a distant enemy. "WHAT THE HELL!" Sapphie yelped pulled out her bow, an arrow nocked and ready. The hooded figure pulled out two pirate cutlasses. **(I am currently obsessed with Assassin's Creed: Black Flag! SO GOOD!) (That was Wolfy) **The figure turned and pulled off its, no, her hood. "Hey Sapphie!" Wolfy said. "WHY ARE YOU AWAKE!" "One word, Sapphie. CAFFEINE!" Sapphie then ran out of her room, in fear knowing that a Wolfy with caffeine is a bad Wolfy. **(WOLFY OUT! PEACE! And remember: nothing is true, everything is permitted.) **

"Damn that Wolfy. Why did I not think of why she was drinking a barrel of caffeine today. [Insert intense swear words] [Insert some Vietnamese and Japanese cursing] Now she has taken over my room. Greatâ€¦.." Mumbled Sapphie as she had to go a different dimension to go to bed.

PUFF!

HUFF!

_"YOU NEVER GAVE ME MY
DINNER!"_

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~Morning!~~~~~~

Wolfy in the morning had a caffeine hangover, like her sugar hangover but it was 10 times worse. She wasn't low on energy but had too much and was jumping around and climbing the walls.
~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

Literally!

PUFF!

Sapphie puffed into the lounge to see the other Members in their usually places that they sit but with barricades around themselves, especially Nerdy.

"What the hel?" said Sapphie.

"Wolfy has a caffeine hang over!" hissed Nerdy behind her wolf and pillow barricade that wouldn't in Sapphie's opinion won't help at all. It basically looked like Nerdy inside a mountain of pillows and Ren on the top.

"Well you're screwed." Said Sapphie who sat down on her bean bag and began to sip her tea.

"Help." Whined Nerdy giving her puppy eyes.

"They don't work on me." Said Sapphie.

"Damn."

"Sapphie can please calm Wolfy down, you know her better than us." Said Fear.

"Fine."

"Wow that was easy."

Sapphie then stood at the door, "Wolfy get your ass over here otherwise I'll throw your precious 'Top 5 Hot Guys' photo album away!" she waited for only a second then spoke again without letting Wolfy speak yet, "Ok! Say bye, bye to Stephen Amell, Troy Baker, Chris Hemsworth, Arno Dorian and Church."

Then Wolfy appear behind her and held out her cutlass up to her neck. "Don't you dare."

"Then come with me." Said Sapphie.

Wolfy grumbled but
obliged.

PUFF!

~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~Moments
Later~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

Sapphie and Wolfy appear back and Wolfy then quickly scurried away to her room clutching her 'Top 5 Hot Guys' photo album to her
chest.

"Done." Said Sapphie. Then she puffed away.

"What do you think happened?" whispered Rumble.

"I bet she gave her a big rant, she did that to me when I was cooking marsh mellows in the microwave on a school trip." Said Nerdy
~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

shuddered remembering a bad memory. **(Yes I yelled at her, I swore so much because she was stupid enough to cook a flipping spoon that had a marsh mellow in the microwave to cook marsh mellows! If I didn't take it out the thing would have exploded. The other girls on the trip said that they could hear me swearing from their cabin, I was that pissed. I even had to do the dishes for the days on the trip. Great Thundering Thor! Wolfy was also there in my cabin watching, I bet she was laughing her hood off on the inside!)**

"That doesn't sound nice." Whispered Agent 101.

"Uh, huh." Replied Nerdy who was cowering behind Ren, "Sapphie is scary when she is
mad."

Wolfy, Derpy and I were on the tech so I did lights Wolfy with sound volume and Derpy did sound effects. The last show was last night it was awesome and scary.
